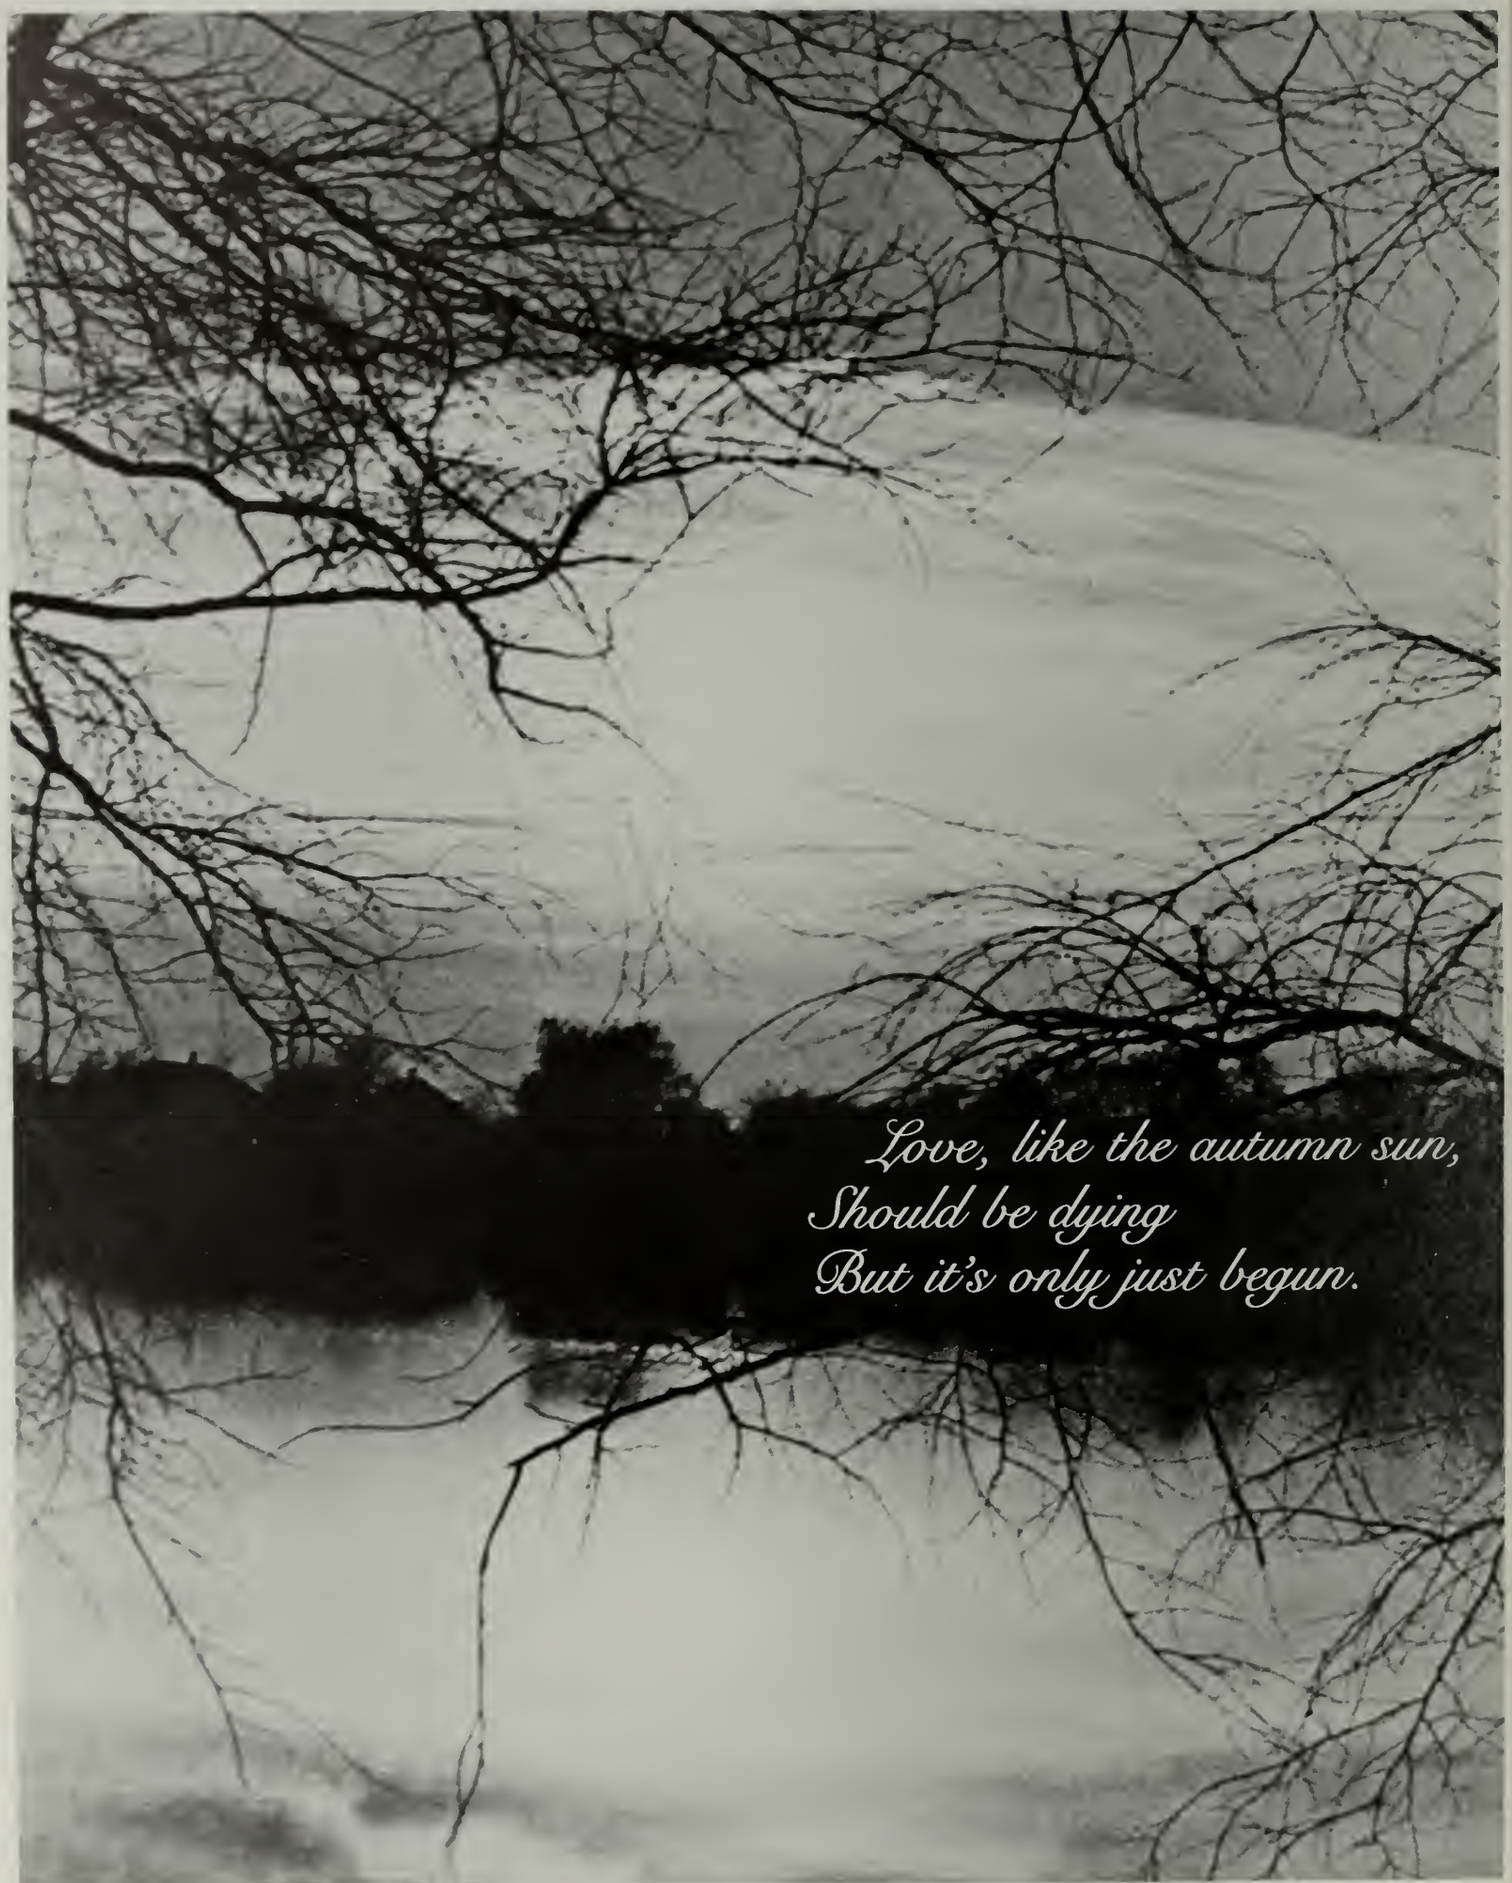
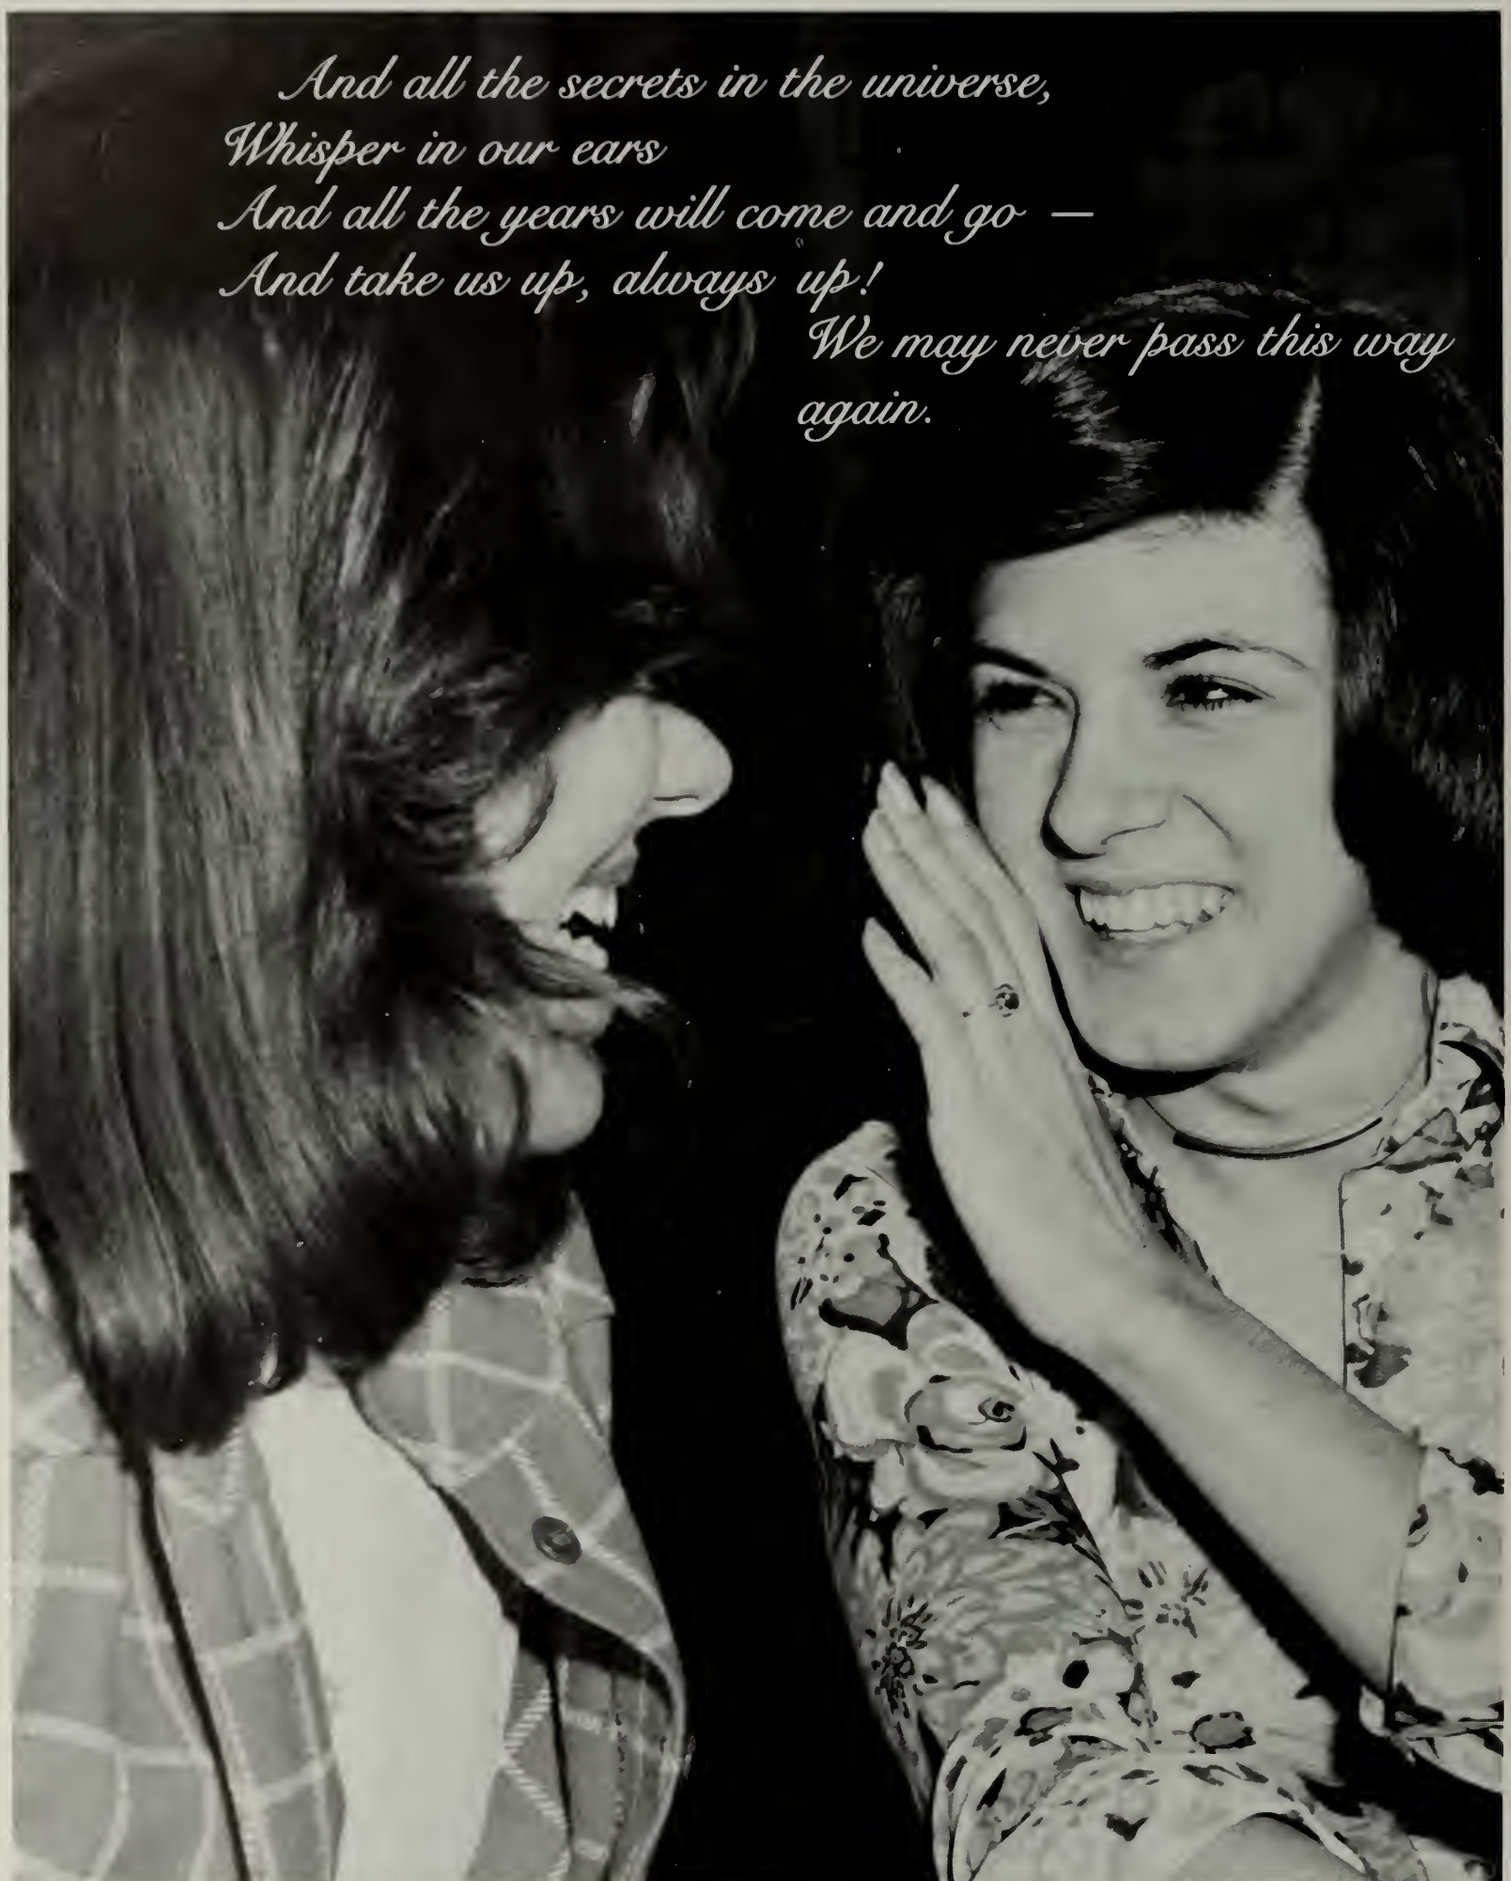
Life, so they say
Is but a game and they
Let it slip away.

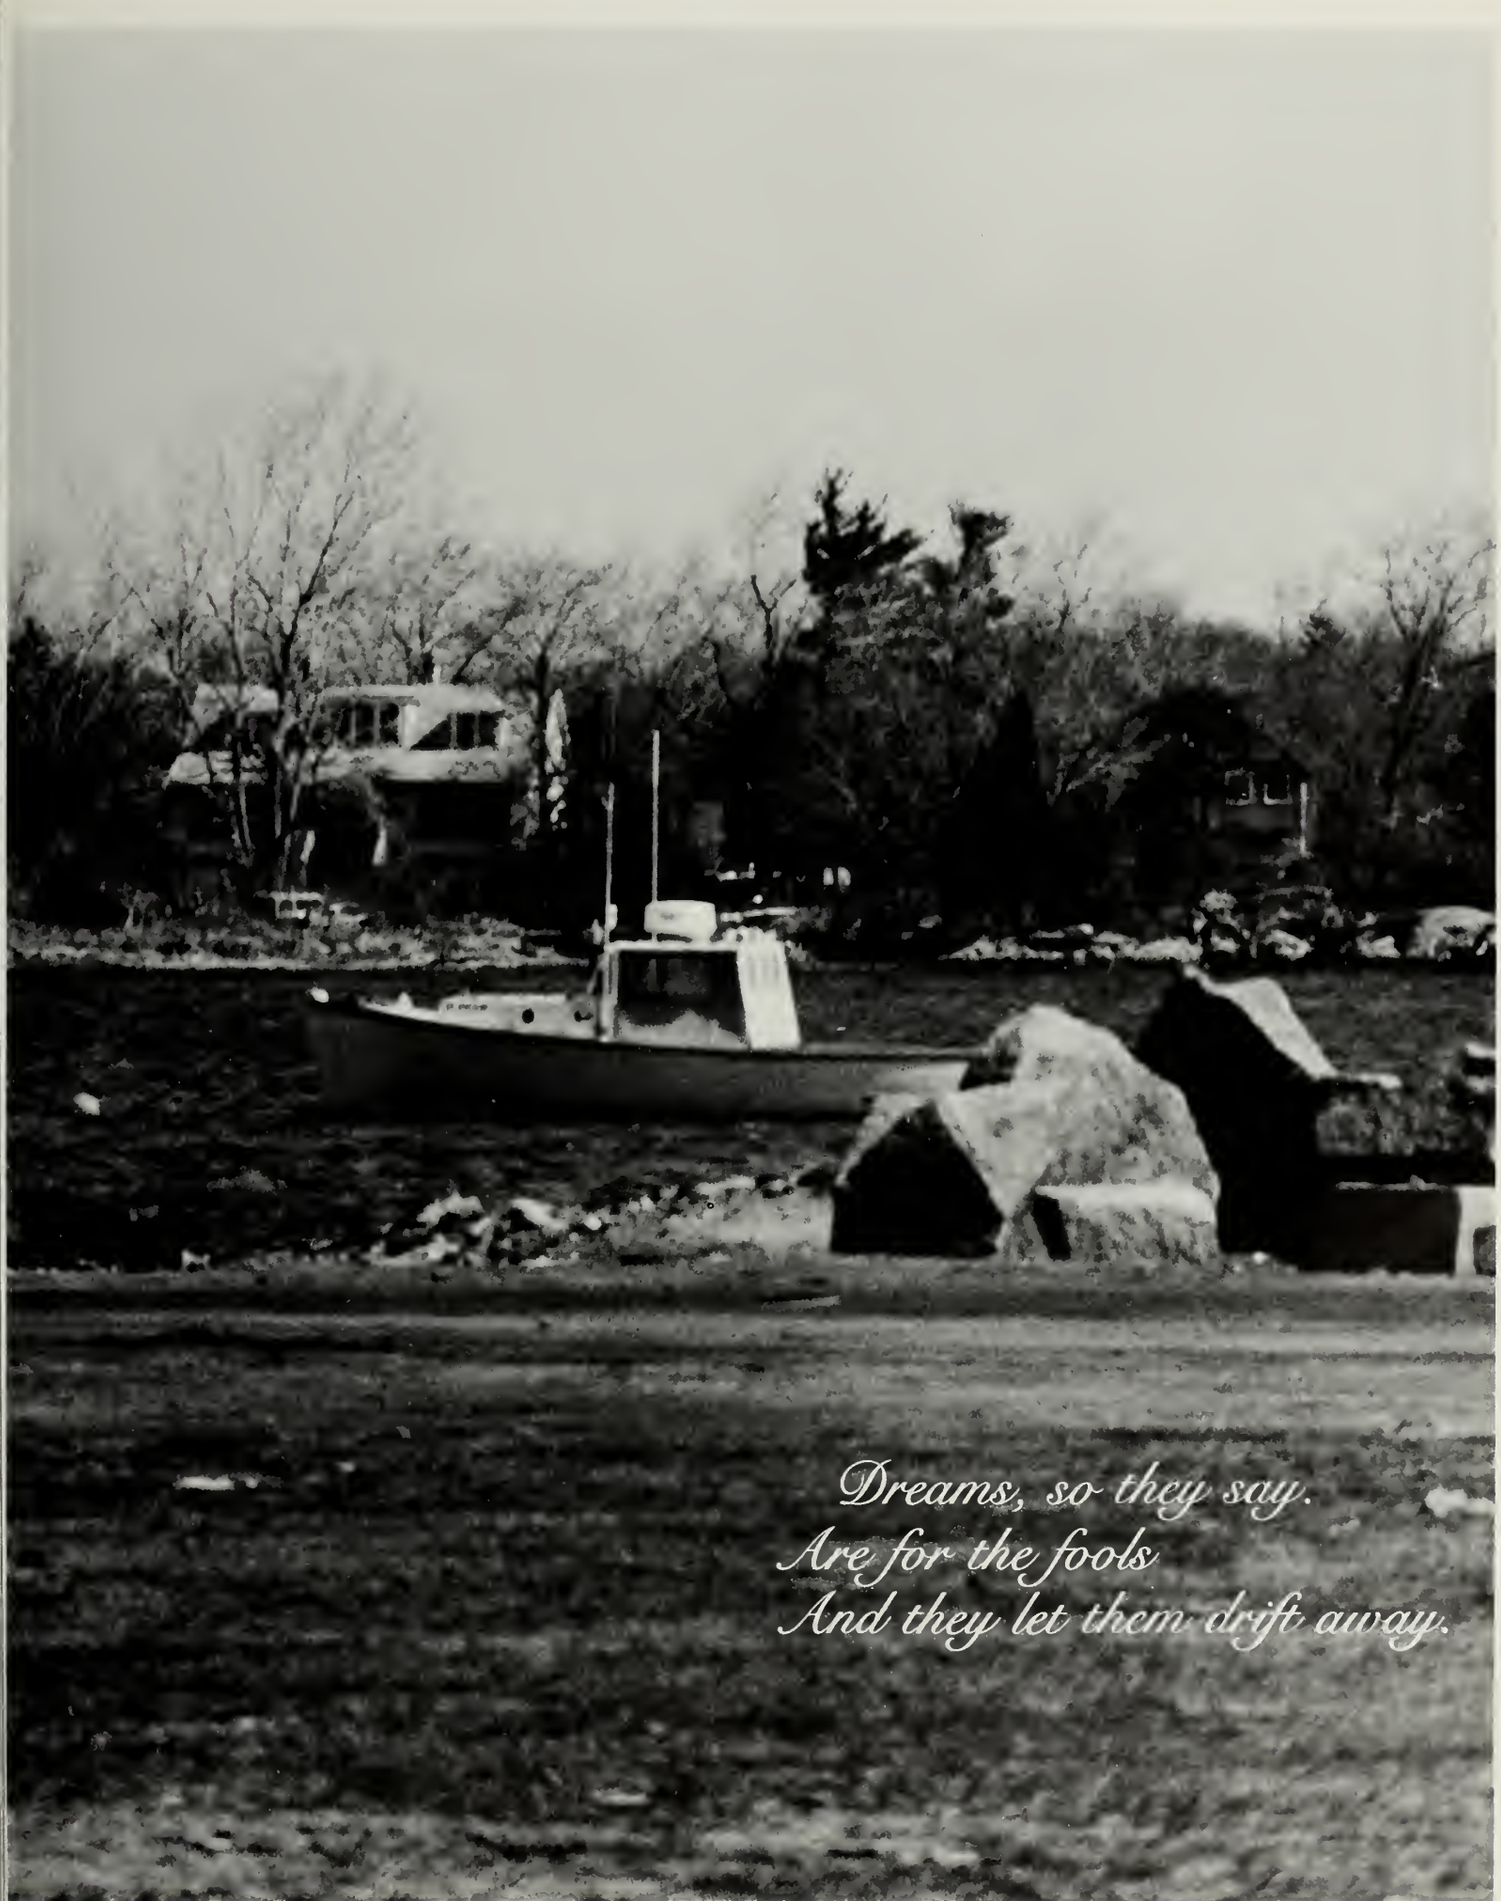


Love, like the autumn sun,
Should be dying
But it's only just begun.

Like the twilight
In the road up ahead,
They don't see just where we're going', —



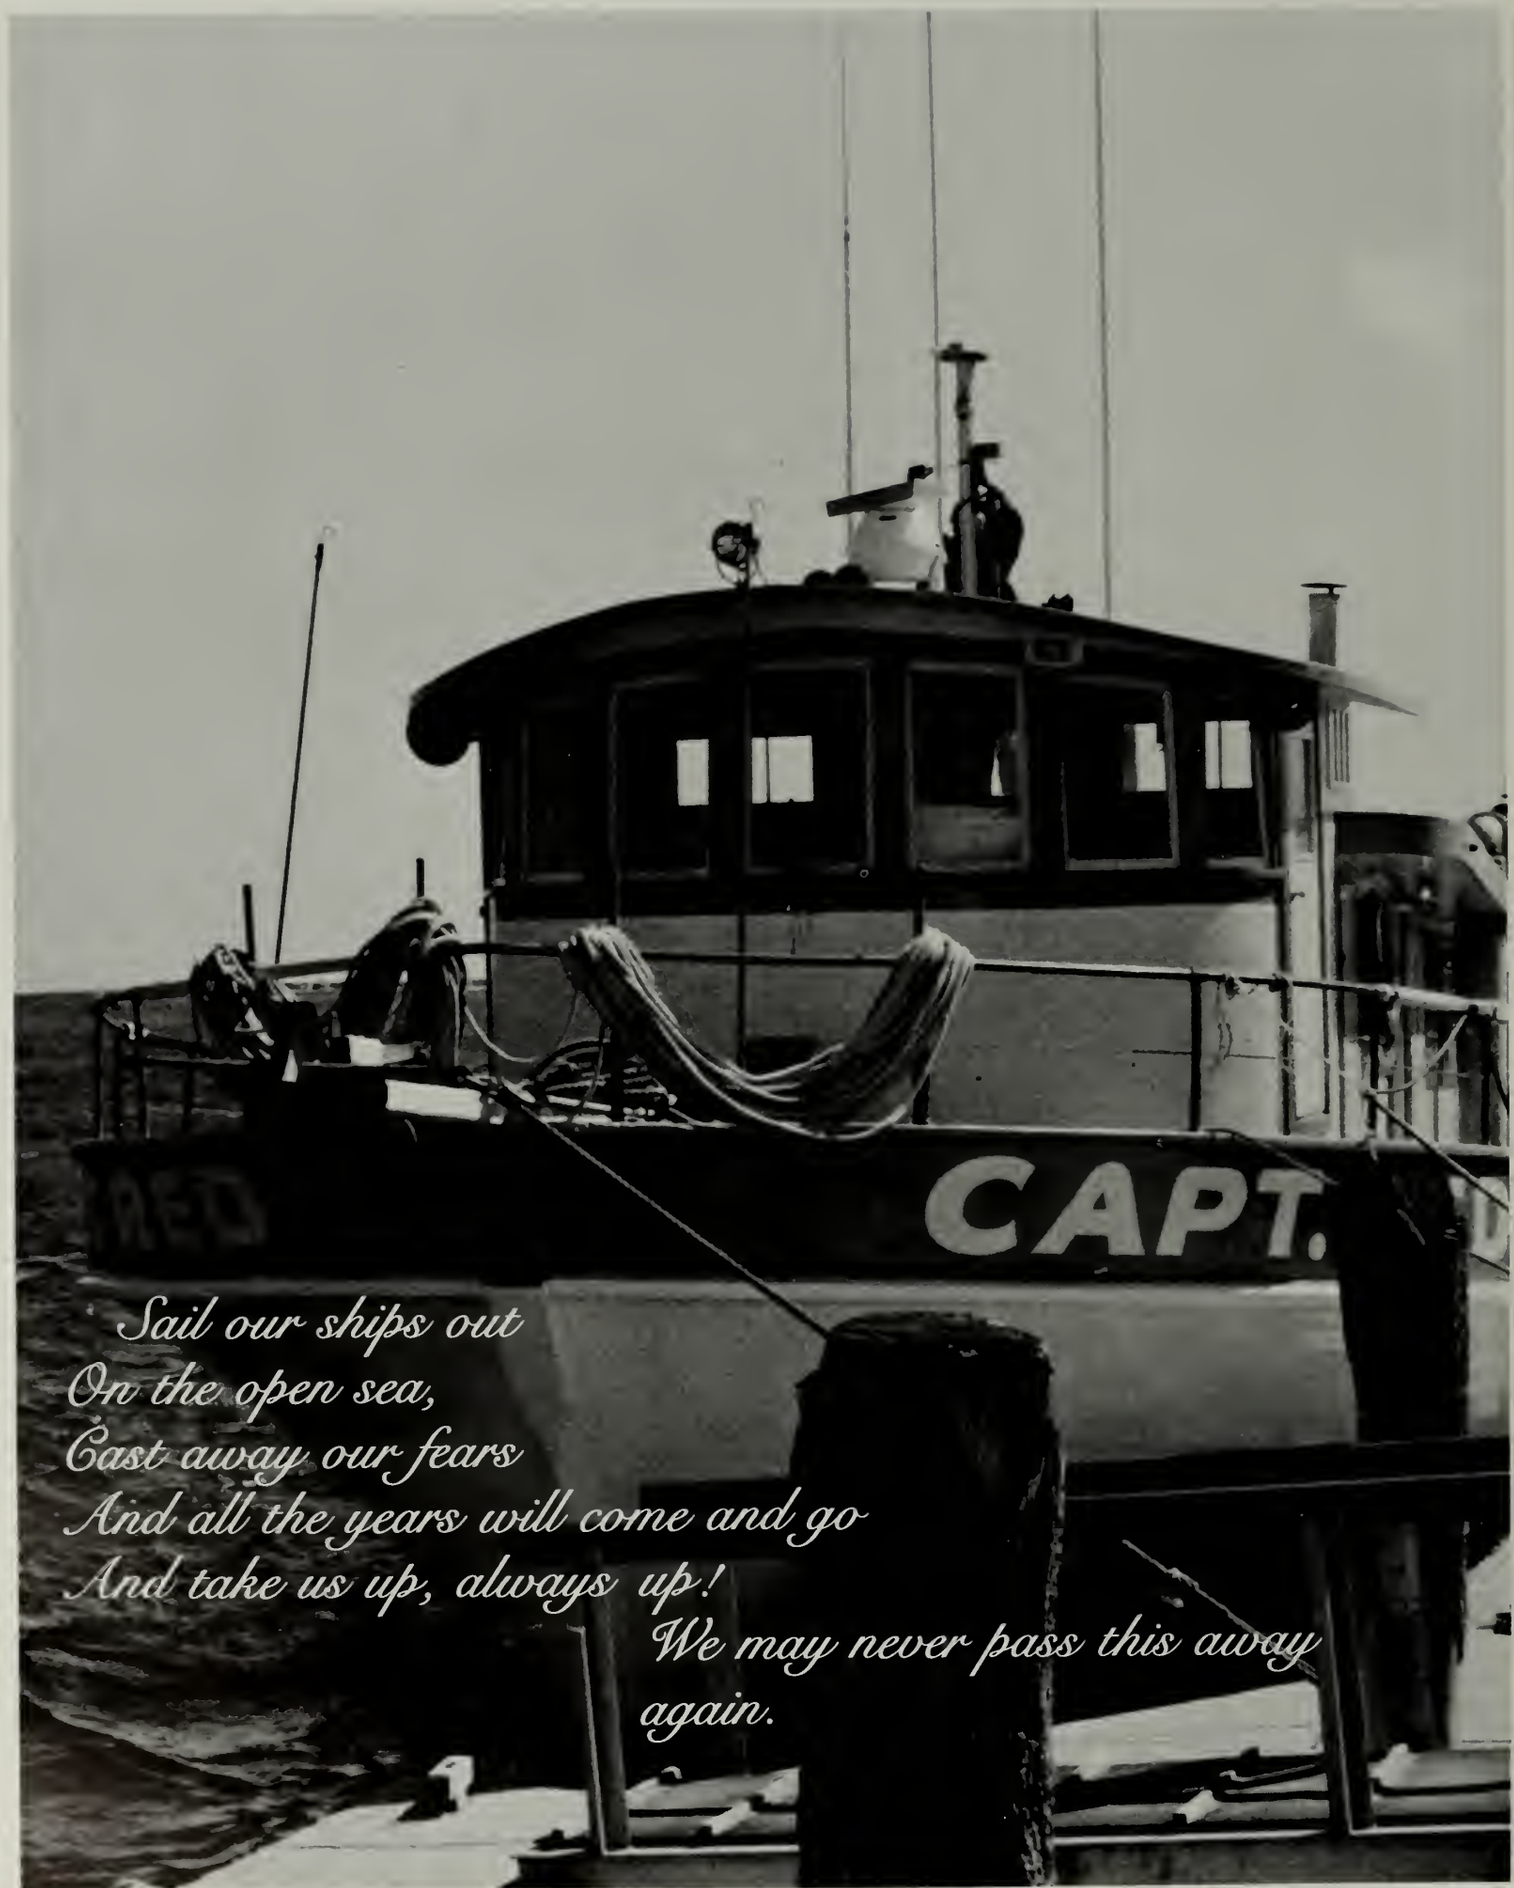
And all the secrets in the universe,
Whisper in our ears
And all the years will come and go —
And take us up, always up!
We may never pass this way
again.



Dreams, so they say.
Are for the fools
And they let them drift away.

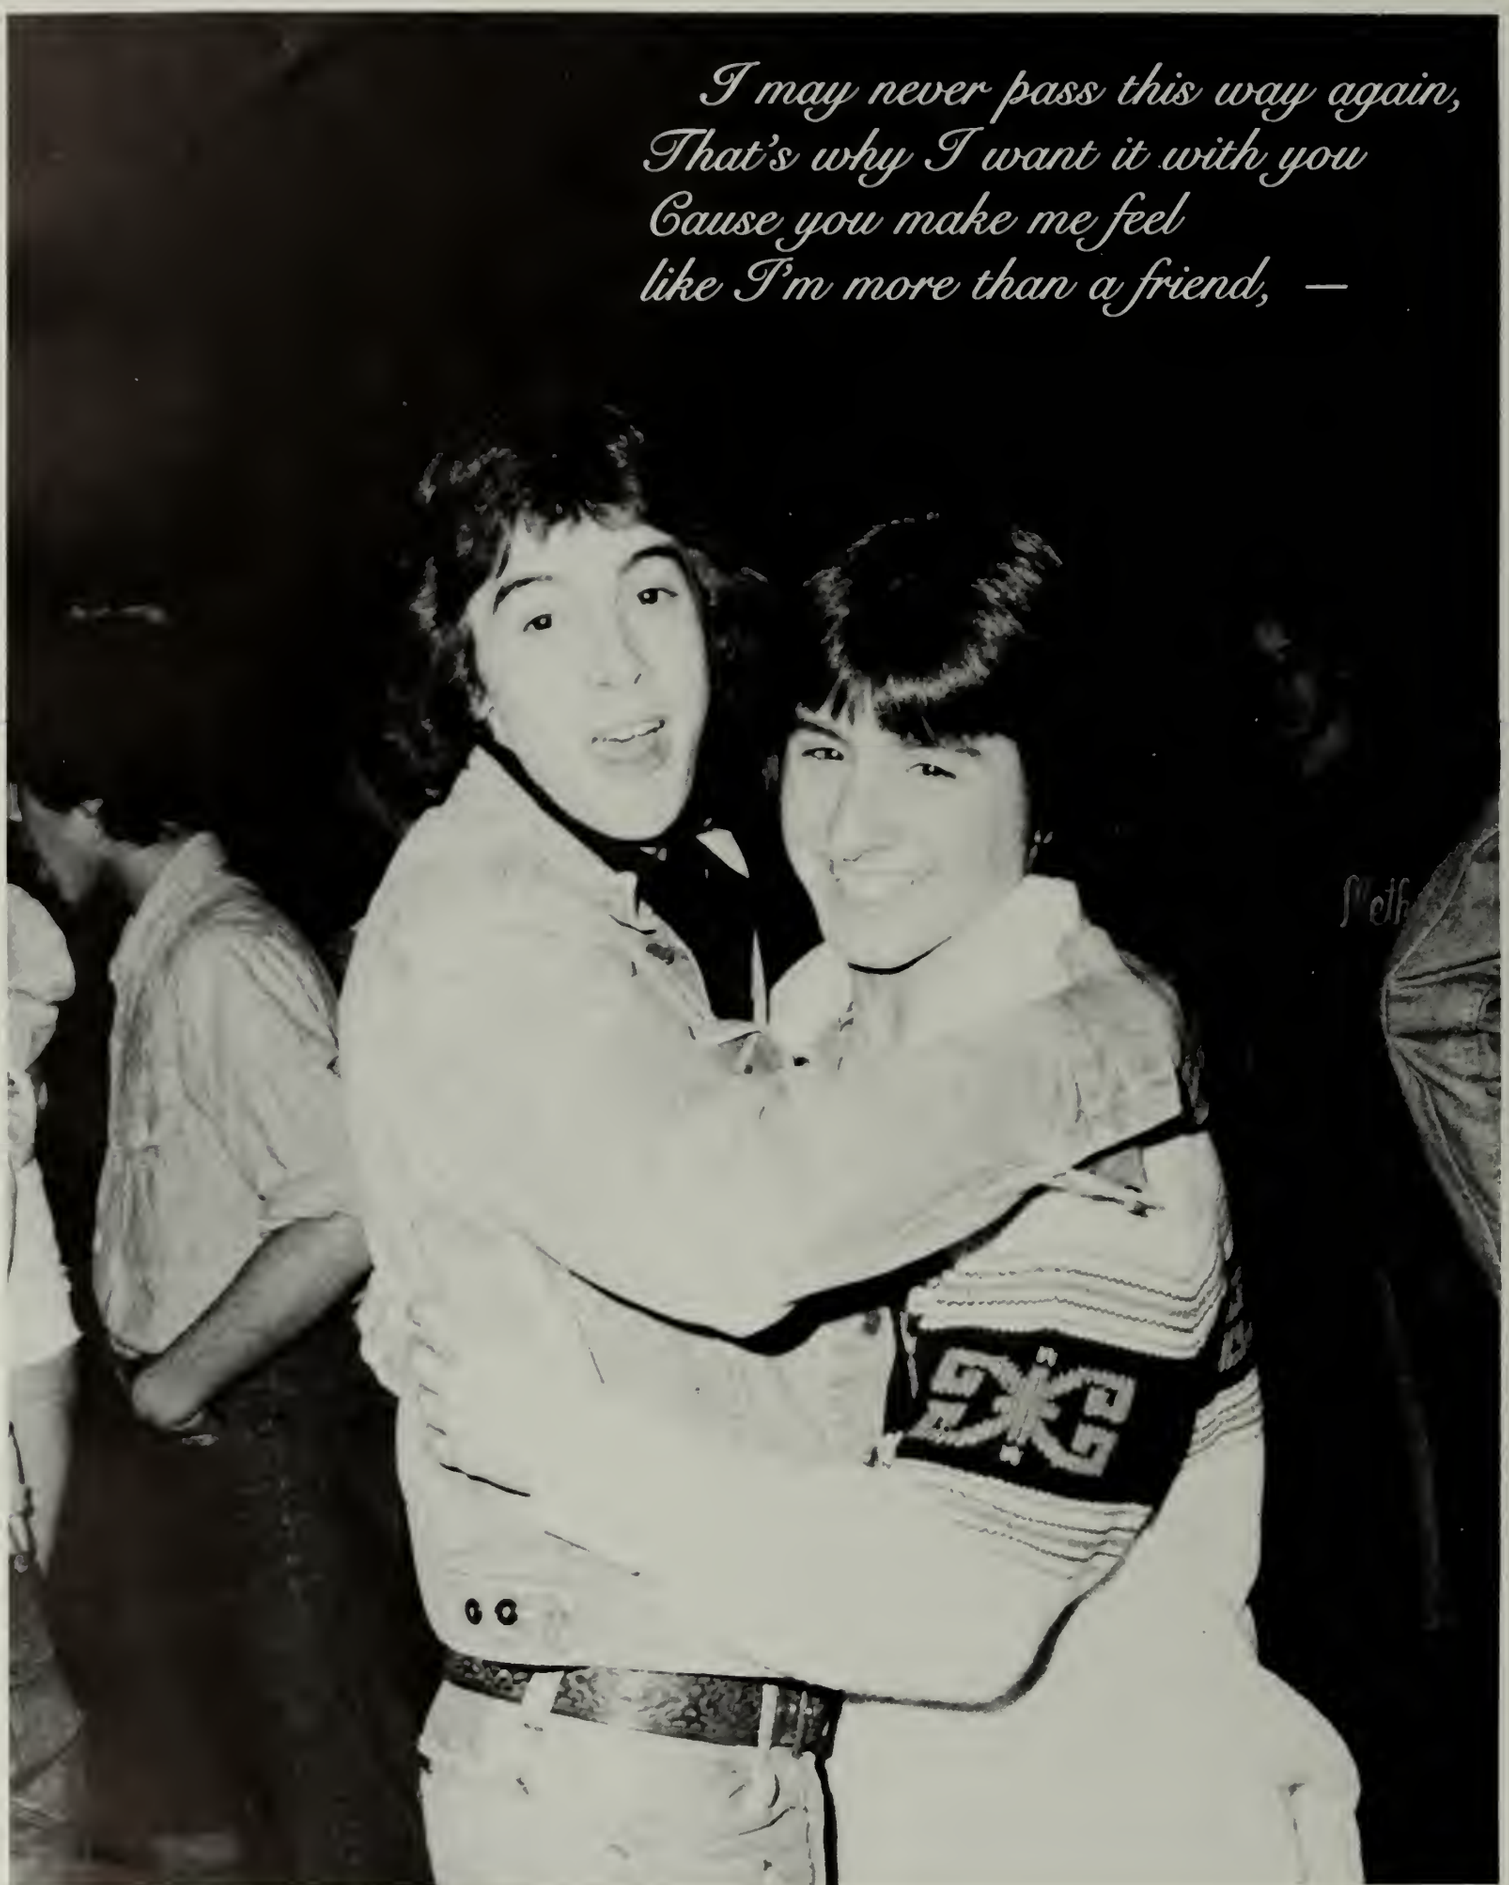
Peace, like the silent dove,
Should be flying
But it's only just begun.

Like Columbus in the olden days,
We must gather all our courage, —

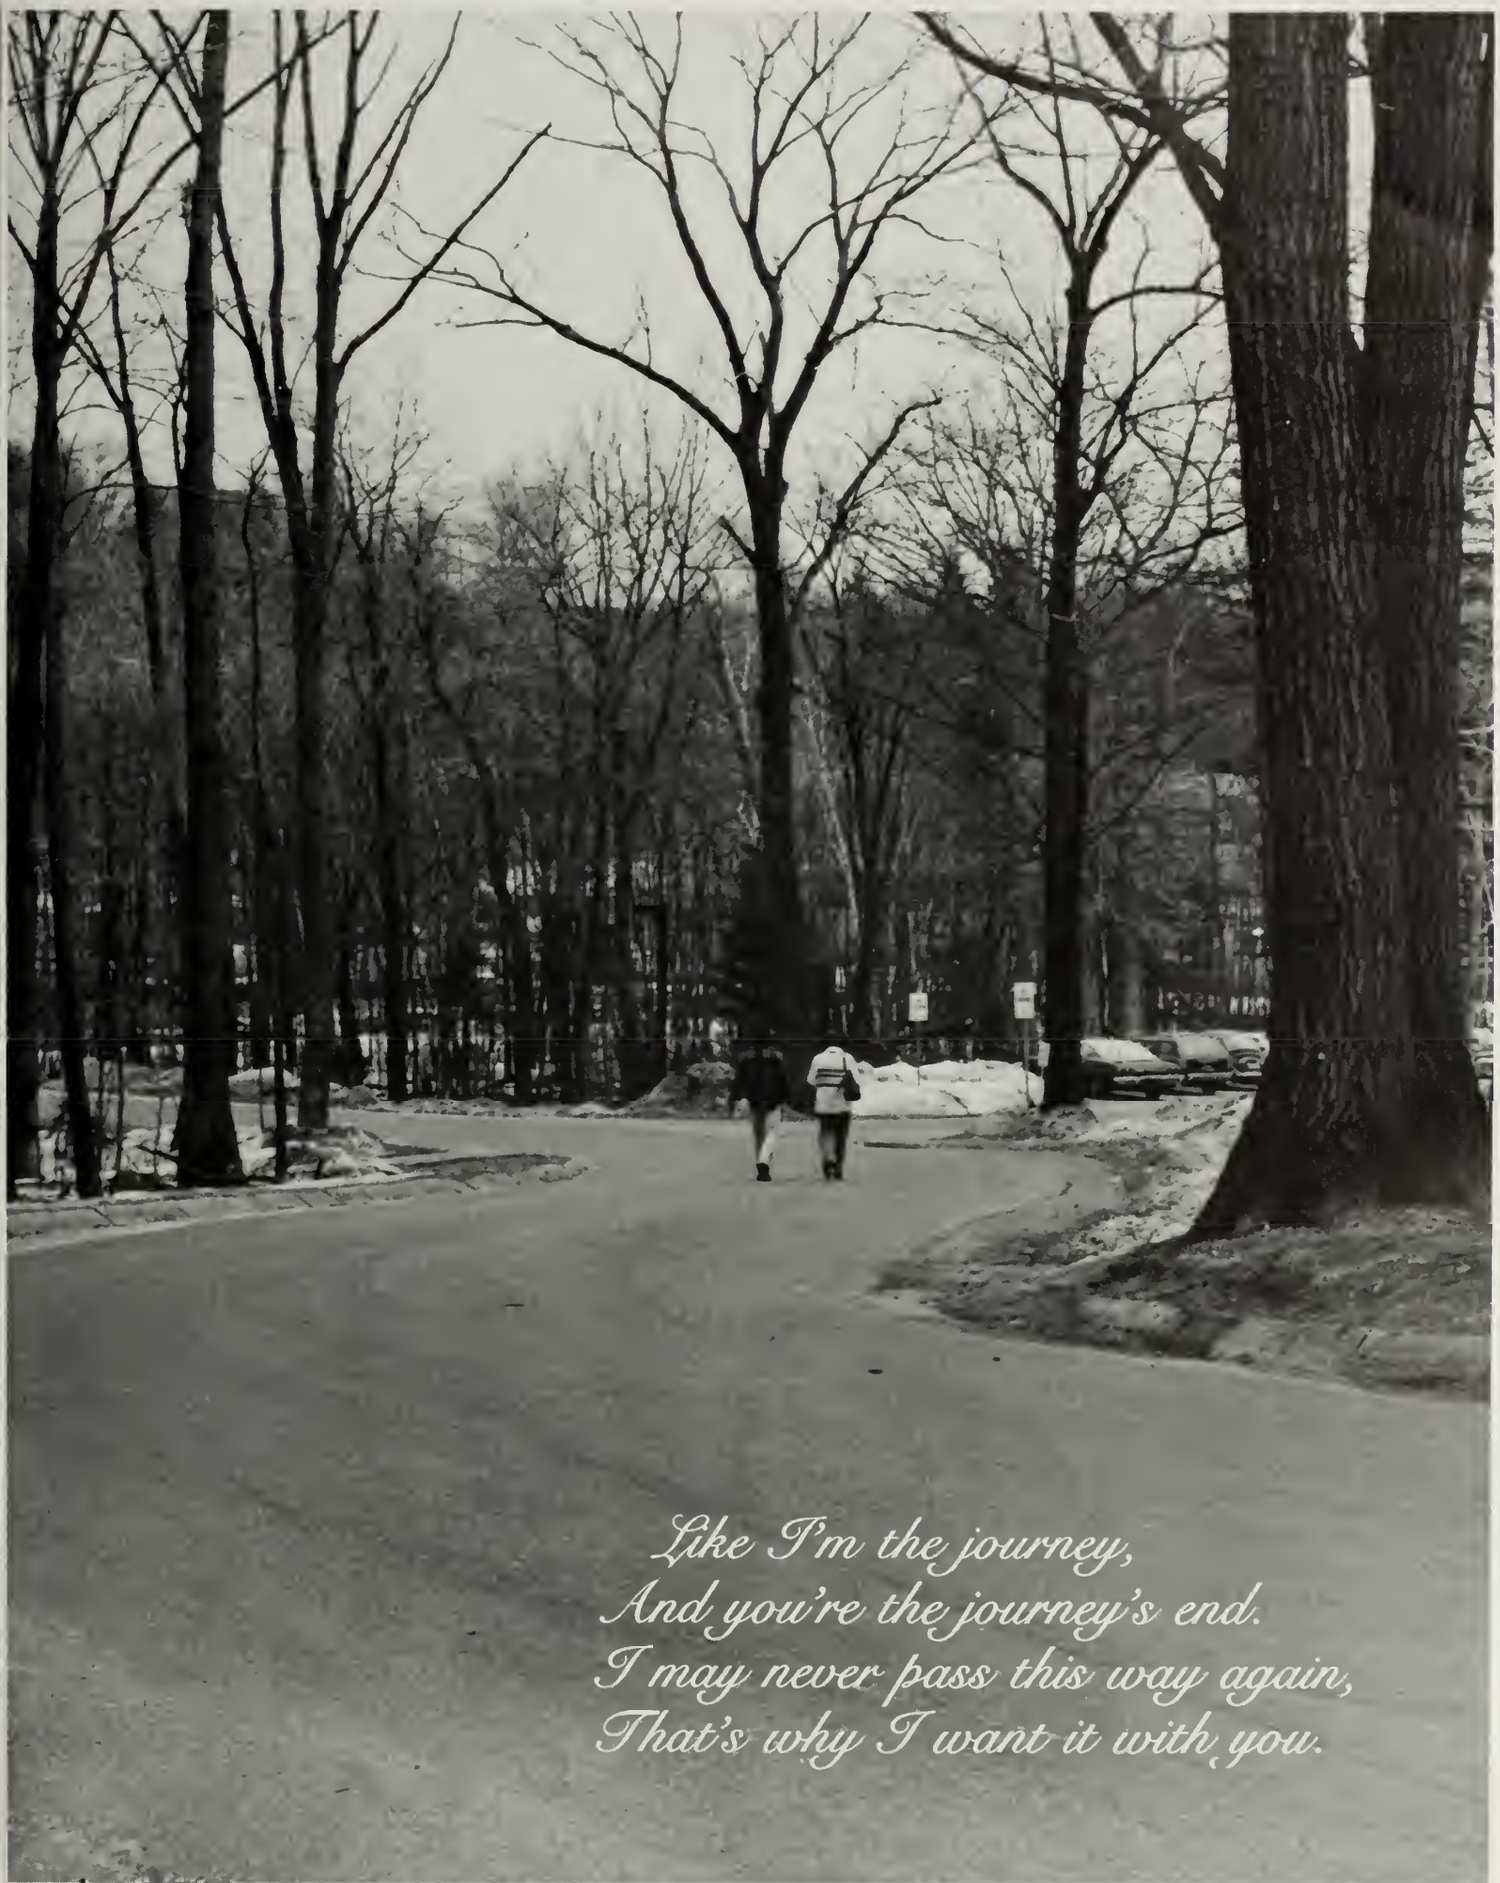


Sail our ships out
On the open sea,
Cast away our fears
And all the years will come and go
And take us up, always up!
We may never pass this away again.

I wanna laugh
While the laughin' is easy.
I wanna cry
If it makes it worthwhile.



I may never pass this way again,
That's why I want it with you
Cause you make me feel
like I'm more than a friend, —



Like I'm the journey,
And you're the journey's end.
I may never pass this way again,
That's why I want it with you.

We may never pass this way again.

THE SENIOR PLAY A GREAT SUCCESS

By Mike Keamy

It is unlikely that our assembly hall or the auditorium at Tenney has ever witnessed a senior play so professionally done as this year's, 'The Marriage Bit.'

The hard work and endless hours of frustration that were put into this play came through very clear in the final production.

This play takes place at the Brindsley Class of 1977. The story concentrates on the responsibilities of marriage. The leading man Jeff, who is played by Mark Gauvin, plans to propose to his girlfriend Kristin, Dru Craven. Before he has a chance to pop the question, Mark's roommate Fuzzy, who is Jim Abdulla, tries to talk him out of proposing by explaining to him the responsibilities and problems that come with love. Fuzzy also persuades Kristin's roommate Imogene, as played by Laurel Dollof, into telling Kristin not to accept the proposal.

Throughout the play, Kristin and Jeff consider married life through a series of flashbacks and trips into the future.

A large part of the play consists of these humorous predicaments of what Jeff and Kristin's married life may be like.

Back at the prom, in a final effort, Fuzzy succeeds in talking Jeff out of proposing to Kristin. In the meantime , Fuzzy has grown fond of Imogene, and in a hilariously ironic scene, Fuzzy unbelievably asks Imogene for her hand in marriage.

Nation's Outstanding Teens Turned Off To Turning On

If today's outstanding teens are on a trip, it's by train, plane or car because they're really turned off to turning on.

In the latest nationwide survey of 23,900 top teens listed in''Who's Who Among American High School Students,'' 88 percent of those polled classify alcohol and drugs as dangerous.

These kids appear to be practicing what they preach since more than half have never had a drink. This contrasts sharply with the 1972 survey, when 85 percent of the students had tried some kind of alcoholic beverage.

Whether or not they think drinking, smoking and drugs will impair their ability to perform is open toconjecture. But there's one thing for sure--these teens are down on highs. Apparently they're not about to jepardize their outstanding stance.

According to the survey, 80 percent have never smoked cigarettes and 11 percent have quit. That means that almost everyone must be taking the Surgeon General's warnings seriously.

Drug use, too, is down significantlyamong this year's survey group. Some 89 percent have never used any drugs and 11 percent have only tried marijuana. This is a considerable difference from 1972, when almost 30 percent of the teens were using drugs, including the hard stuff.

Legalizing marijuana doesn't turn on the majority of these kids, either. Sixty-four percent are against giving grass the legal go-ahead, a 10 percent jump since 1973.

At the same time, better than half (54 percent) agree that marijuana has become an accepted part of teenlifestyle. This doesn't mean, however, that the teens want to be part of and party to the stuff. In fact, 86 percent maintain they will not go to parties where other students drink and use drugs.

Although a vast majority of these teens are quick to declare that their attitudes about drugs and drinking are strictly their own, parental influence may have quietly crept into the picture.

For example, 47 percent of those students asked have parents who don't drink (57 percent of the parents do). Some 59 percent of the parent either disapprove or don't know their children drink. And, 86 percent of the parents do not use drugs.

If we read the figures correctly, today's high achievers, slated to be tomorrow's leaders, will lend a sober and reassuring presence to the American scene in the next decade.

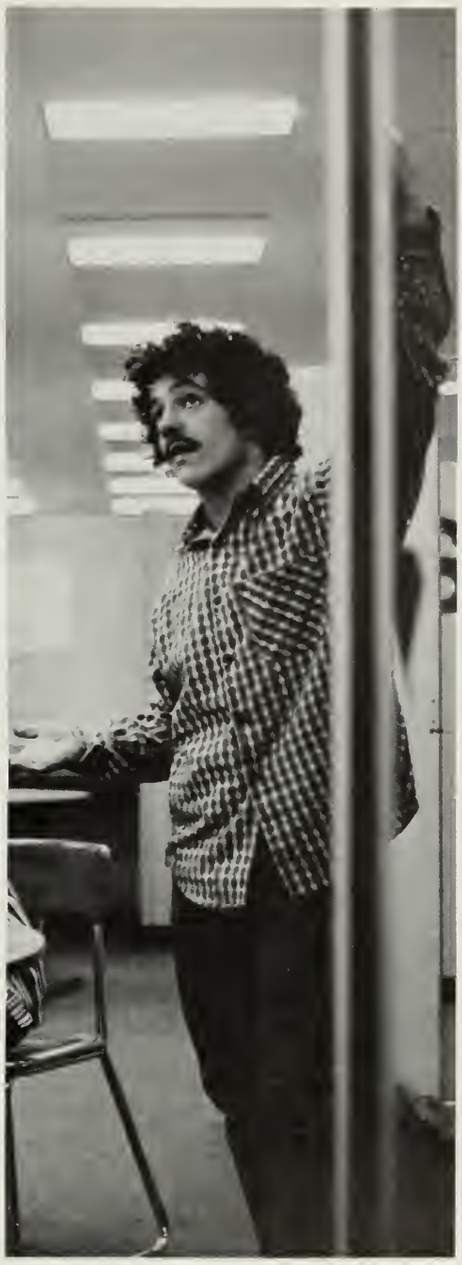
OUR SCHOOL DAYS END!



AWARDS DAY '77

If you have built castles in the air,
Your work need not be lost;
That is where they should be.
Now put foundations under them.

Though this is the end of our high school years, it is the beginning of new experiences. Many of us will be going on to further our education, while others will seek employment. Most of us have goals and dreams that we are working towards. These goals give meaning to life and make life worth living. While striving to achieve our goals each day, we all have the hope that in the future our dreams will come true.

As we go through life, we will meet many obstacles that will hinder our progress and keep us from doing what we have set out to do. There will be people who will have little faith in us and will discourage us. We must not let these people drag us down. Instead we should turn toward those who do have faith in our goals and who offer love and encouragement. No matter how impossible our dreams may seem to be, we should have the determination to work hard to make them come true.

Many people are content to settle for the achievement of one goal, and then they just sit back and let life pass by without ever setting new goals, without trying to improve themselves in any way. As we go through life, we should continually set new goals for ourselves and keep working hard to achieve these goals. Only then will our lives have meaning and be worthwhile. Although it may seem difficult to reach our goals, we must never stop hoping that our dreams will someday come true. Good luck to all of you in achieving your goals. Thank you.

THE CLASS HISTORY OF 1977

It was like the sun setting on a life to which we could never return. In June 1974, we would emerge from the Junior High School's protective shell and be faced with the reality of High School life in the fall. Gina Neve closed out our Junior High days with a bang by knocking over one of the speakers at groduation ceremonies.

The next year found us at Tenney High, the place where the students were big and mean and the teachers hod to use whips in their classes. Soon we found out this wasn't so. We got into the swing of things quickly and before we knew it, we hod elected our class officers — They were: Mark Childs — Pres. Kathy Danahy — Vice-Pres. Linda Lafrenier — Sec. and Lynn Auclair — Treas. We olso hod our pull in the student council with our representatives: Debbie Waitkevich, Leilah Keomy, Linda Adams, Robin Reitano and Richard Corso. That was a great yeor with leaky roofs, running from seniors, and trying to find out which of our teachers were "Push overs". It was also the first year of the state tourney for the Soccer team which included some members of our class: Peter O'Connell, Craig Haskell, Manny DeDeus, Dave Gordon and Kevin Salois. The end of the year came for us with the ordering of our school rings ond the promise of a new High School at last in the fall.

Our Junior year started a bit late, which nobody seemed to mind at all. In foct, it wasn't until late October that we began classes. At first the new building was a bit confusing, but the kids adapted quickly to the myriad of colors and room locations. Although most of the students knew their way to classes within a day or two, the Confusing new building was still a good excuse for being late to class.

Again, we elected new class officers. This time Jane Szostak was elected Pres. Douglas Bolduc — Vice-Pres., Lynn Auclair — Sec. and Lucy Simm — Treas. Our representatives in the student council were: Linda Adams, Leilah Keamy, Debbie Waitkevich, and Richard Corso.

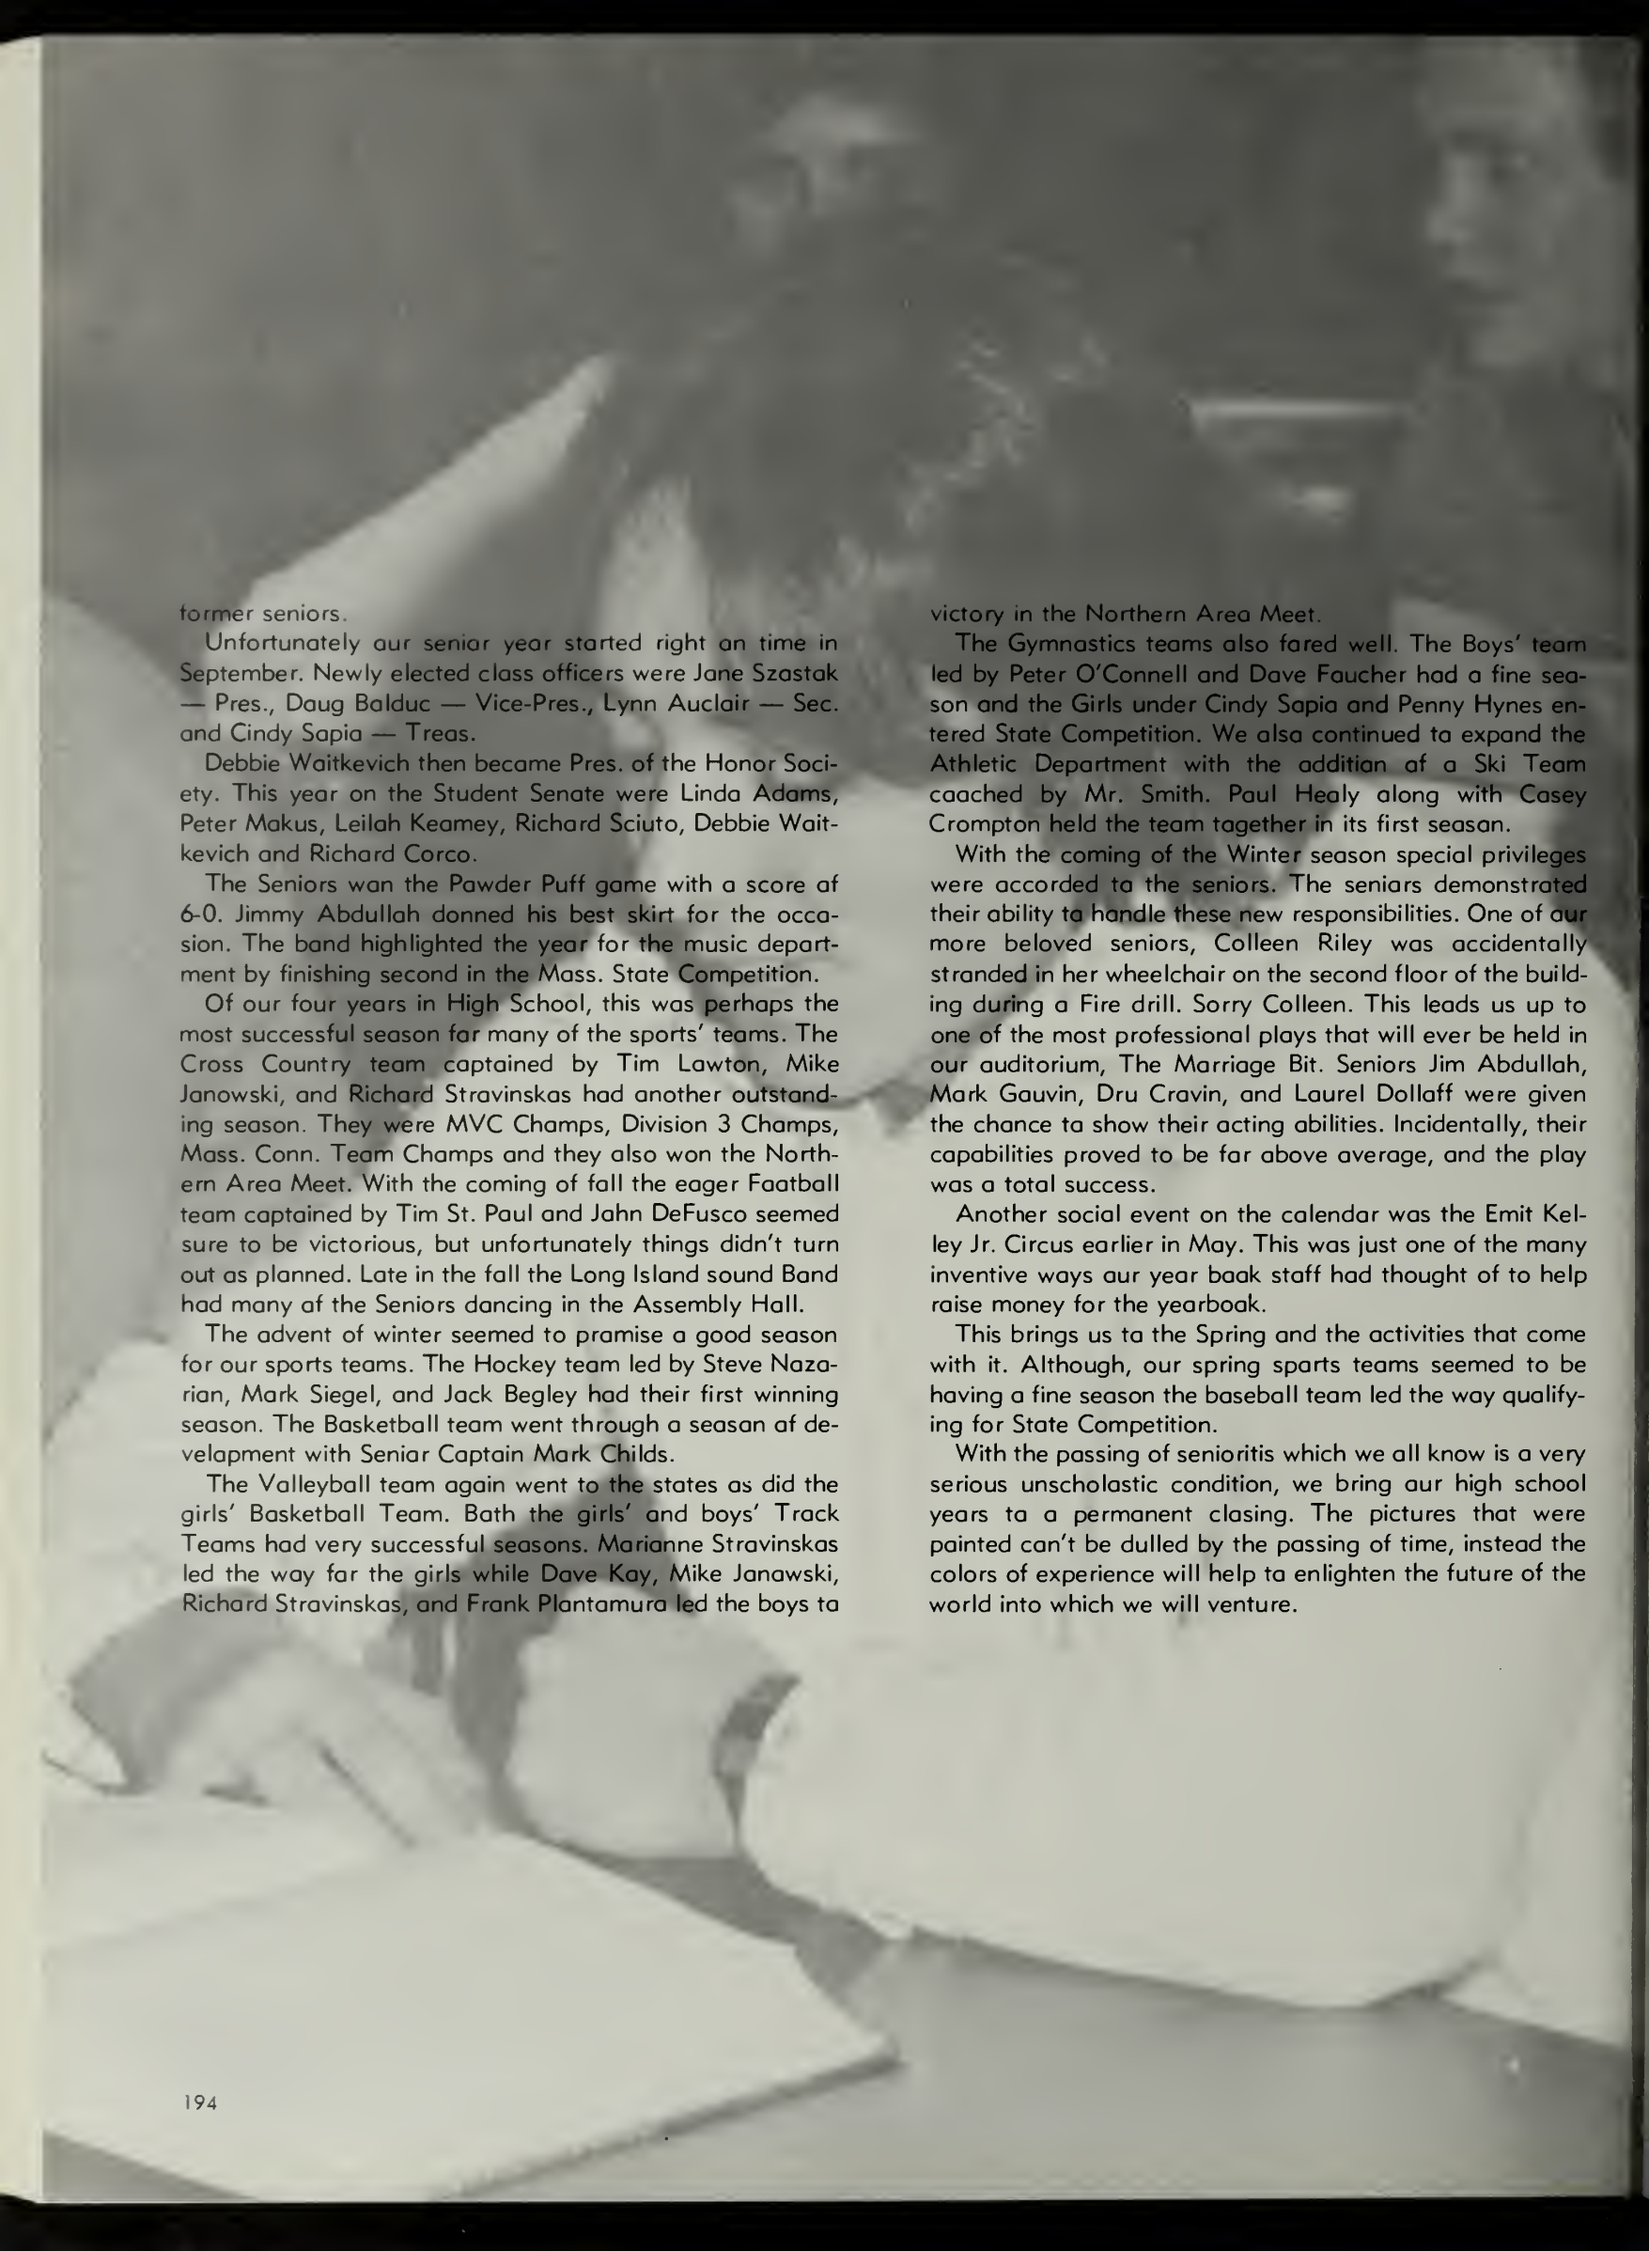
In the Foll, our Powder Puff teom led by incomparables Gino Neve, Sue Marcinkevich and Winnie Leonard beat the skirts of the senior girls, shutting them out 8 to 0. Our Soccer team did just as well as they had the previous year. With the help of Peter O'Connell and Mark Archanbault, they ogoin qualified for state competition with a record of 8-4-4. Joe Vaiknoras was penalized for showing some brightness when he decided to shine a moon in the medio center. By this time the students were toking full advantage of the octivity areas for meeting with friends between and during classes. Some of the regulars were Cindy Sopia, Cathy Castiglione, Lynn Auclair, Paul Love, Jack Sopia and Bob Zacharias. Along with the activity areas, the carals in the medio center which were meont for quiet study soon became sleeping oreas.

Carl Ehramjian under the guidonce of Mr. Isodore was chosen Drum Mojor of the Band in this his Junior year.

The Cadets with 1st Sargeant Dan Gagnon, training Sargeant Chuck Boddy and John Wrobel captured the New England Chompionship.

While most of the sports teams fared rather well, the Volleyball team in its 1st season led by Captain Gina Neve qualified for the state tournament. With a record of 15-1 and the help of Juniors Winnie Leonard, Gina Neve, Judy Landry, Heidi Neff, Gail Ganem, Karen McGrail, Celeste Lippe, Linda Scandora and Jane Szostak, the softboll team captured the Merrimack Valley Championship for the 3rd time. The Golf Team also had an outstanding season while Casey Crompton topped things off by winning the State Individual Golf Championship.

With the first graduating class of Methuen High School leaving in May of 76, we took over as the seniors in charge. We started right in by returning to the underclassmen some of the treatment we had received from



former seniors.

Unfortunately our senior year started right on time in September. Newly elected class officers were Jane Szastak — Pres., Daug Balduc — Vice-Pres., Lynn Auclair — Sec. and Cindy Sapia — Treas.

Debbie Waitkevich then became Pres. of the Honor Society. This year on the Student Senate were Linda Adams, Peter Makus, Leilah Keamey, Richard Sciuto, Debbie Waitkevich and Richard Corco.

The Seniors wan the Pawder Puff game with a score af 6-0. Jimmy Abdullah donned his best skirt for the occasion. The band highlighted the year for the music department by finishing second in the Mass. State Competition.

Of our four years in High School, this was perhaps the most successful season far many of the sports' teams. The Cross Country team captained by Tim Lawton, Mike Janowski, and Richard Stravinskas had another outstanding season. They were MVC Champs, Division 3 Champs, Mass. Conn. Team Champs and they also won the Northern Area Meet. With the coming of fall the eager Faatball team captained by Tim St. Paul and Jahn DeFusco seemed sure to be victorious, but unfortunately things didn't turn out as planned. Late in the fall the Long Island sound Band had many af the Seniors dancing in the Assembly Hall.

The advent of winter seemed to pramise a good season for our sports teams. The Hockey team led by Steve Nazarian, Mark Siegel, and Jack Begley had their first winning season. The Basketball team went through a seasan af develapment with Seniar Captain Mark Childs.

The Valleyball team again went to the states as did the girls' Basketball Team. Bath the girls' and boys' Track Teams had very successful seasons. Marianne Stravinskas led the way far the girls while Dave Kay, Mike Janawski, Richard Stravinskas, and Frank Plantamura led the boys ta victory in the Northern Area Meet.

The Gymnastics teams also fared well. The Boys' team led by Peter O'Connell and Dave Faucher had a fine season and the Girls under Cindy Sapia and Penny Hynes entered State Competition. We alsa continued ta expand the Athletic Department with the additian af a Ski Team caached by Mr. Smith. Paul Healy along with Casey Crompton held the team tagether in its first seasan.

With the coming of the Winter season special privileges were accorded ta the seniors. The seniars demonstrated their ability ta handle these new responsibilities. One of aur more beloved seniors, Colleen Riley was accidentally stranded in her wheelchair on the second floor of the building during a Fire drill. Sorry Colleen. This leads us up to one of the most professional plays that will ever be held in our auditorium, The Marriage Bit. Seniors Jim Abdullah, Mark Gauvin, Dru Cravin, and Laurel Dollaff were given the chance ta show their acting abilities. Incidentally, their capabilities proved to be far above average, and the play was a total success.

Another social event on the calendar was the Emit Kelley Jr. Circus earlier in May. This was just one of the many inventive ways aur year baak staff had thought of to help raise money for the yearboak.

This brings us ta the Spring and the activities that come with it. Although, our spring sparts teams seemed to be having a fine season the baseball team led the way qualifying for State Competition.

With the passing of senioritis which we all know is a very serious unscholastic condition, we bring aur high school years ta a permanent clasing. The pictures that were painted can't be dulled by the passing of time, instead the colors of experience will help ta enlighten the future of the world into which we will venture.

CLASS PROPHECY

Well, it's finally ready for printing. **I sure hope Time editors think so. **What more could they want from two people who have volunteered a year of their time to look up their fellow high school classmates — all 397 of them? **Remember, Jane, they did pay for all our plane tickets and personal necessities. **This is true. If it hadn't been for Time's associate editor Dave L'Ecuyer, this project would never have gotten under way. **It was a worthwhile project, too. We got to travel and at the same time see how people change. **Let's go over it one more time before we present it to the top brass. **O.K. In June af 1977, 397 teen-agers graduated from Methuen High School. Ten years later Jane Szostak and Judy Lancry traveled the world with intentions of interviewing each member of that class. Their findings are as follows: **Many of the graduates stayed in Methuen and the surrounding towns. **After several years of working at MacDonald's Rick Corso is now co-owner of the MacDonald Corporation. One of his devoted patrons is Linda Adams who always brings her husband Todd and their seven kids. **Debbie Dimmock married Kevin Feole and together they are successfully managing Bea's. **Because he was locked in Market Basket so many times, Paul Favreau was made the head night security officer. He enjoys the job because there's never anyone around to bother him. While working on her latest suspense novel, Lorraine Zakia is head librarian at the Methuen library. **Nancy Galloway, Cathy Castiglione, Susan Eaton, and Nancy Martin are secretaries for many of the top businessmen in the Greater Lawrence area. At the high school level Rosanne Tabacco is teaching art, Ann DiBenedetto is in the Spanish Department, and Chris Morency is the history coordinator. ****Ricky Sciuto is Methuen's newly elected Town Administrator. He has promised the townspeople that he'll make Methuen a more exciting tawn on Friday and Saturday nights. ** Mark Childs is a member of the schaal committee and he hopes to put walls in the "Methuen Country Club," alias M.H.S. **Several of the graduates have become lawyers. OUR SENIOR PROM

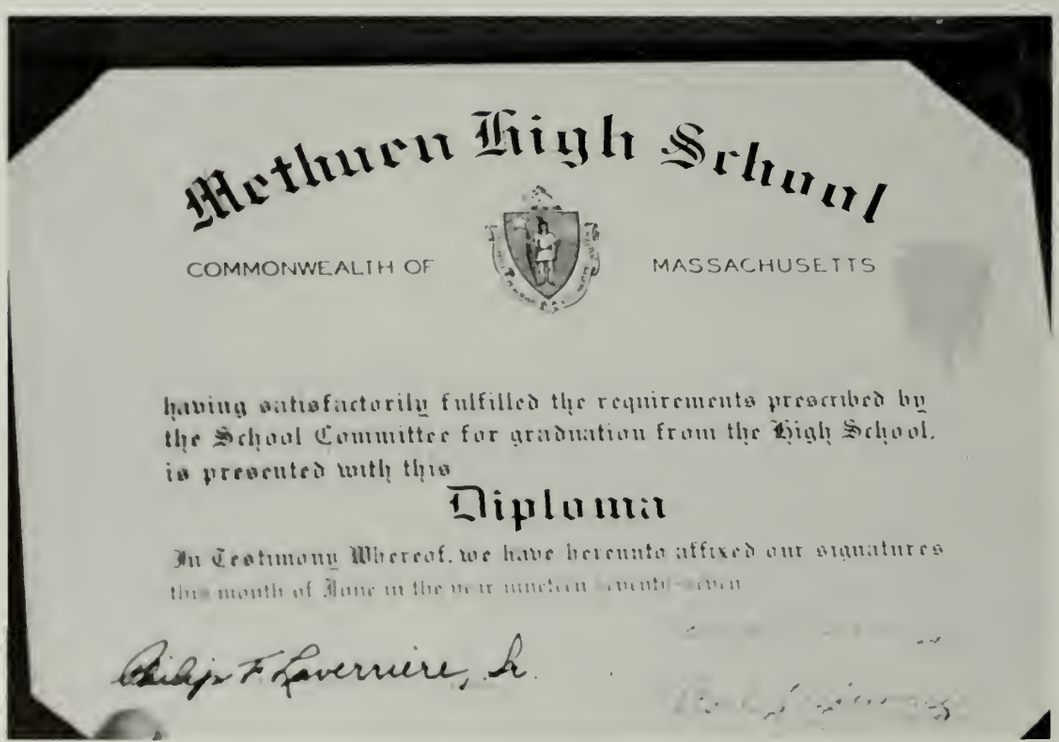
SUDDENLY

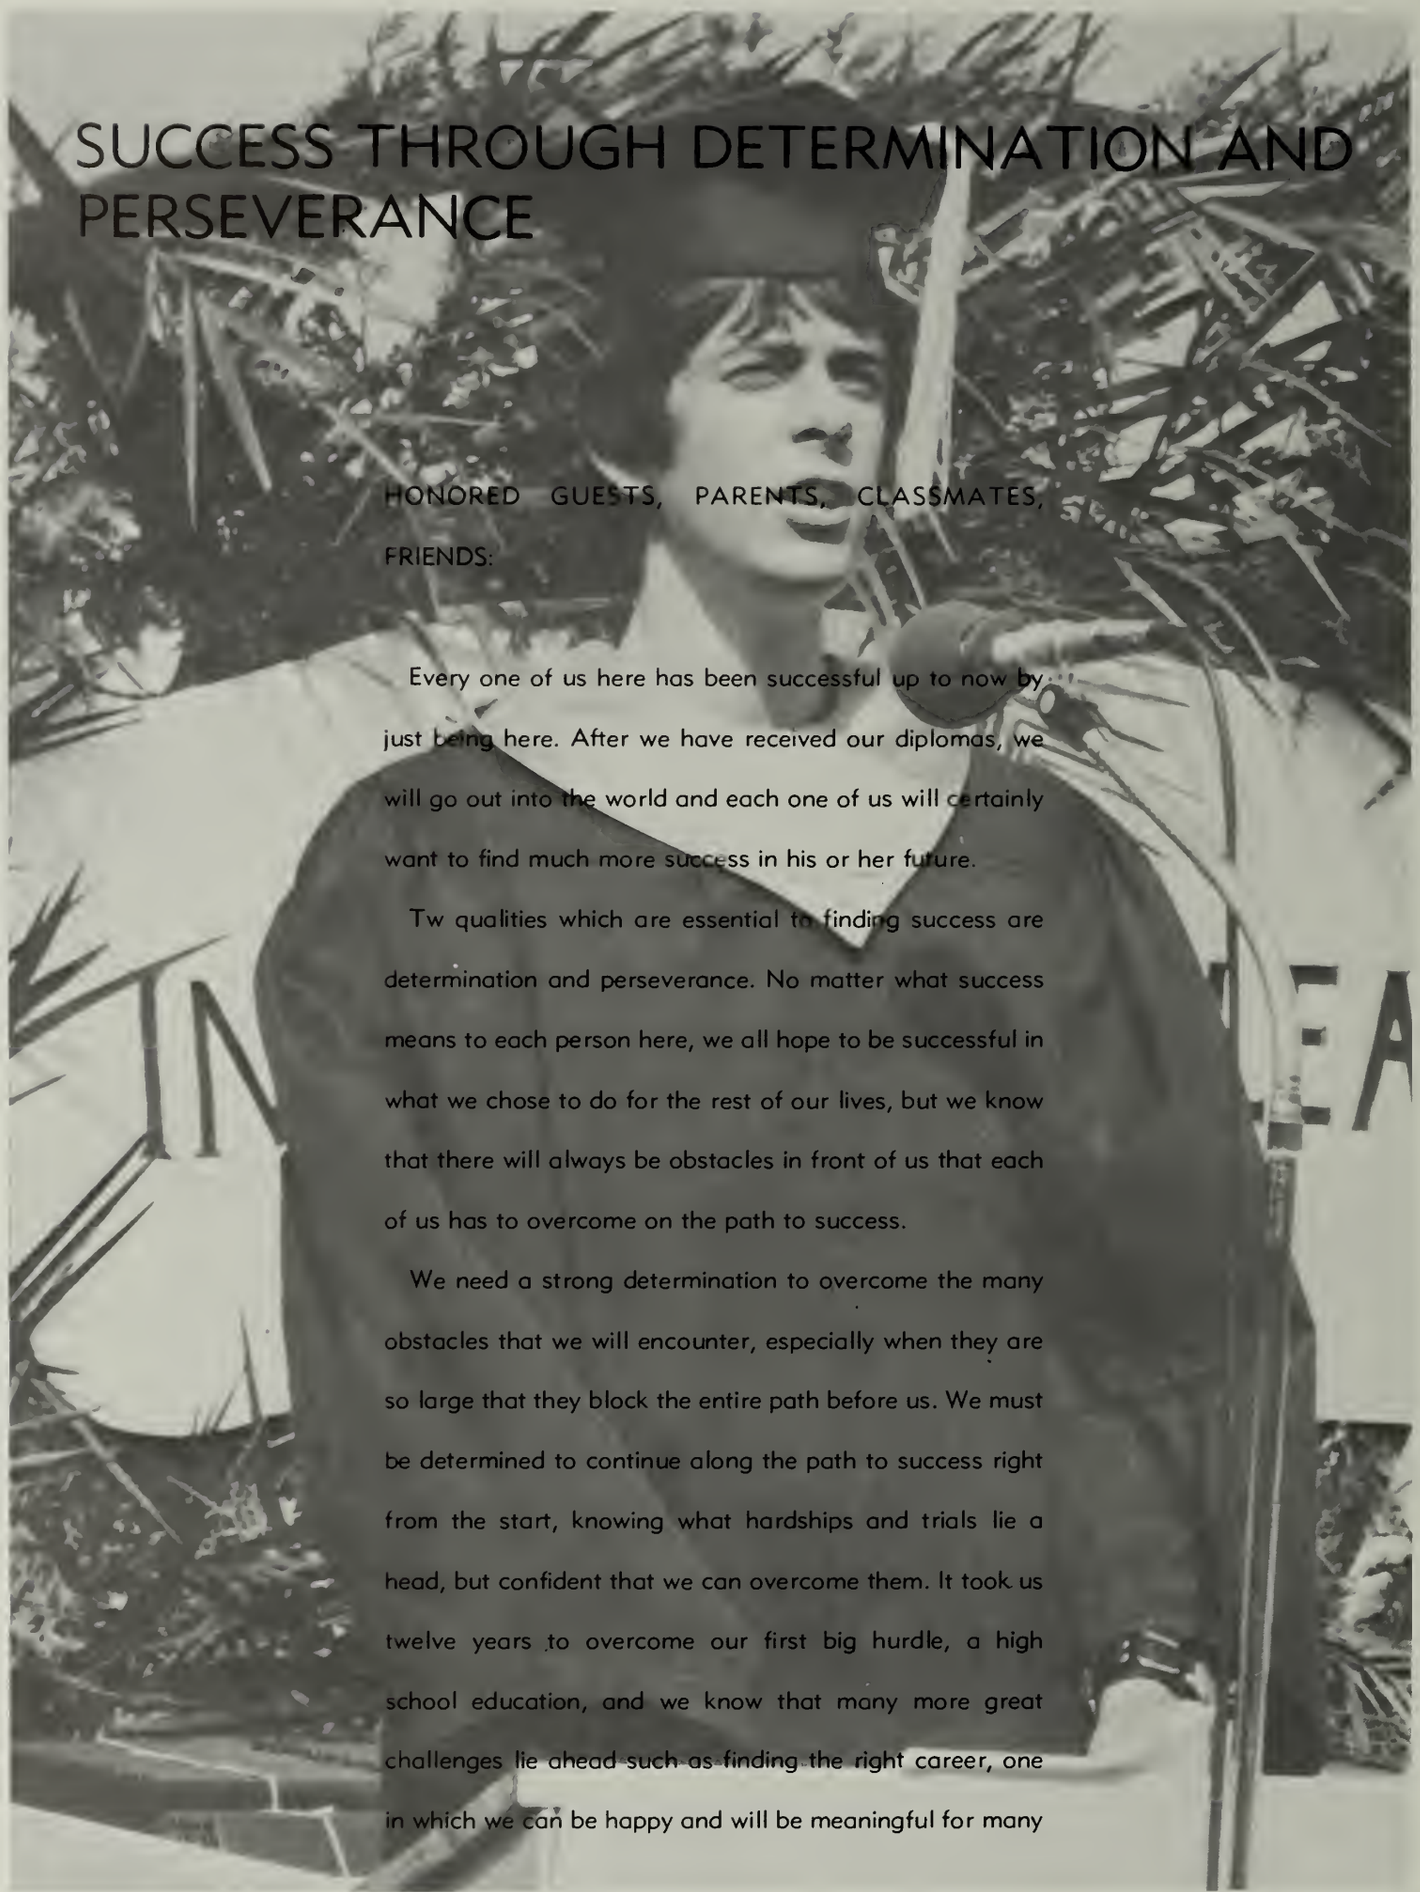
IT'S JUNE 5, 1977



Methuen High School
COMMONWEALTH OF MASSACHUSETTS
having satisfactorily fulfilled the requirements prescribed by the School Committee for graduation from the High School, is presented with this
Diploma
In Testimony Whereof, we have hereunto affixed our signatures

. . . . GRADUATION

IN DOING



SUCCESS THROUGH DETERMINATION AND PERSEVERANCE

HONORED GUESTS, PARENTS, CLASSMATES, FRIENDS:

Every one of us here has been successful up to now by just being here. After we have received our diplomas, we will go out into the world and each one of us will certainly want to find much more success in his or her future.

Tw qualities which are essential to finding success are determination and perseverance. No matter what success means to each person here, we all hope to be successful in what we chose to do for the rest of our lives, but we know that there will always be obstacles in front of us that each of us has to overcome on the path to success.

We need a strong determination to overcome the many obstacles that we will encounter, especially when they are so large that they block the entire path before us. We must be determined to continue along the path to success right from the start, knowing what hardships and trials lie a head, but confident that we can overcome them. It took us twelve years to overcome our first big hurdle, a high school education, and we know that many more great challenges lie ahead such as finding the right career, one in which we can be happy and will be meaningful for many

years, or successfully completing college first then going out into the world to find a job when jobs are becoming increasingly scarce even for college graduates.

In addition to the major concerns we will come upon, the many minor obstacles can amount to the worst ones of all. We will need perseverance to keep on pushing forward over the years that lie ahead. It will require much perseverance just to live with the grind that everyday life can become. Those of us who are going to college will need perseverance to complete another four years of school. It will be hard facing the many changes in our society with inflation and fuel shortages. Later in life we will need perseverance to continue going to the same job we have been going to for many years.

The path to success is long and extremely hard to follow, but I hope that every person graduating here today will find his or her way along the path to success and find much happiness and contentment in life.

Thank you,

Steve Sanford

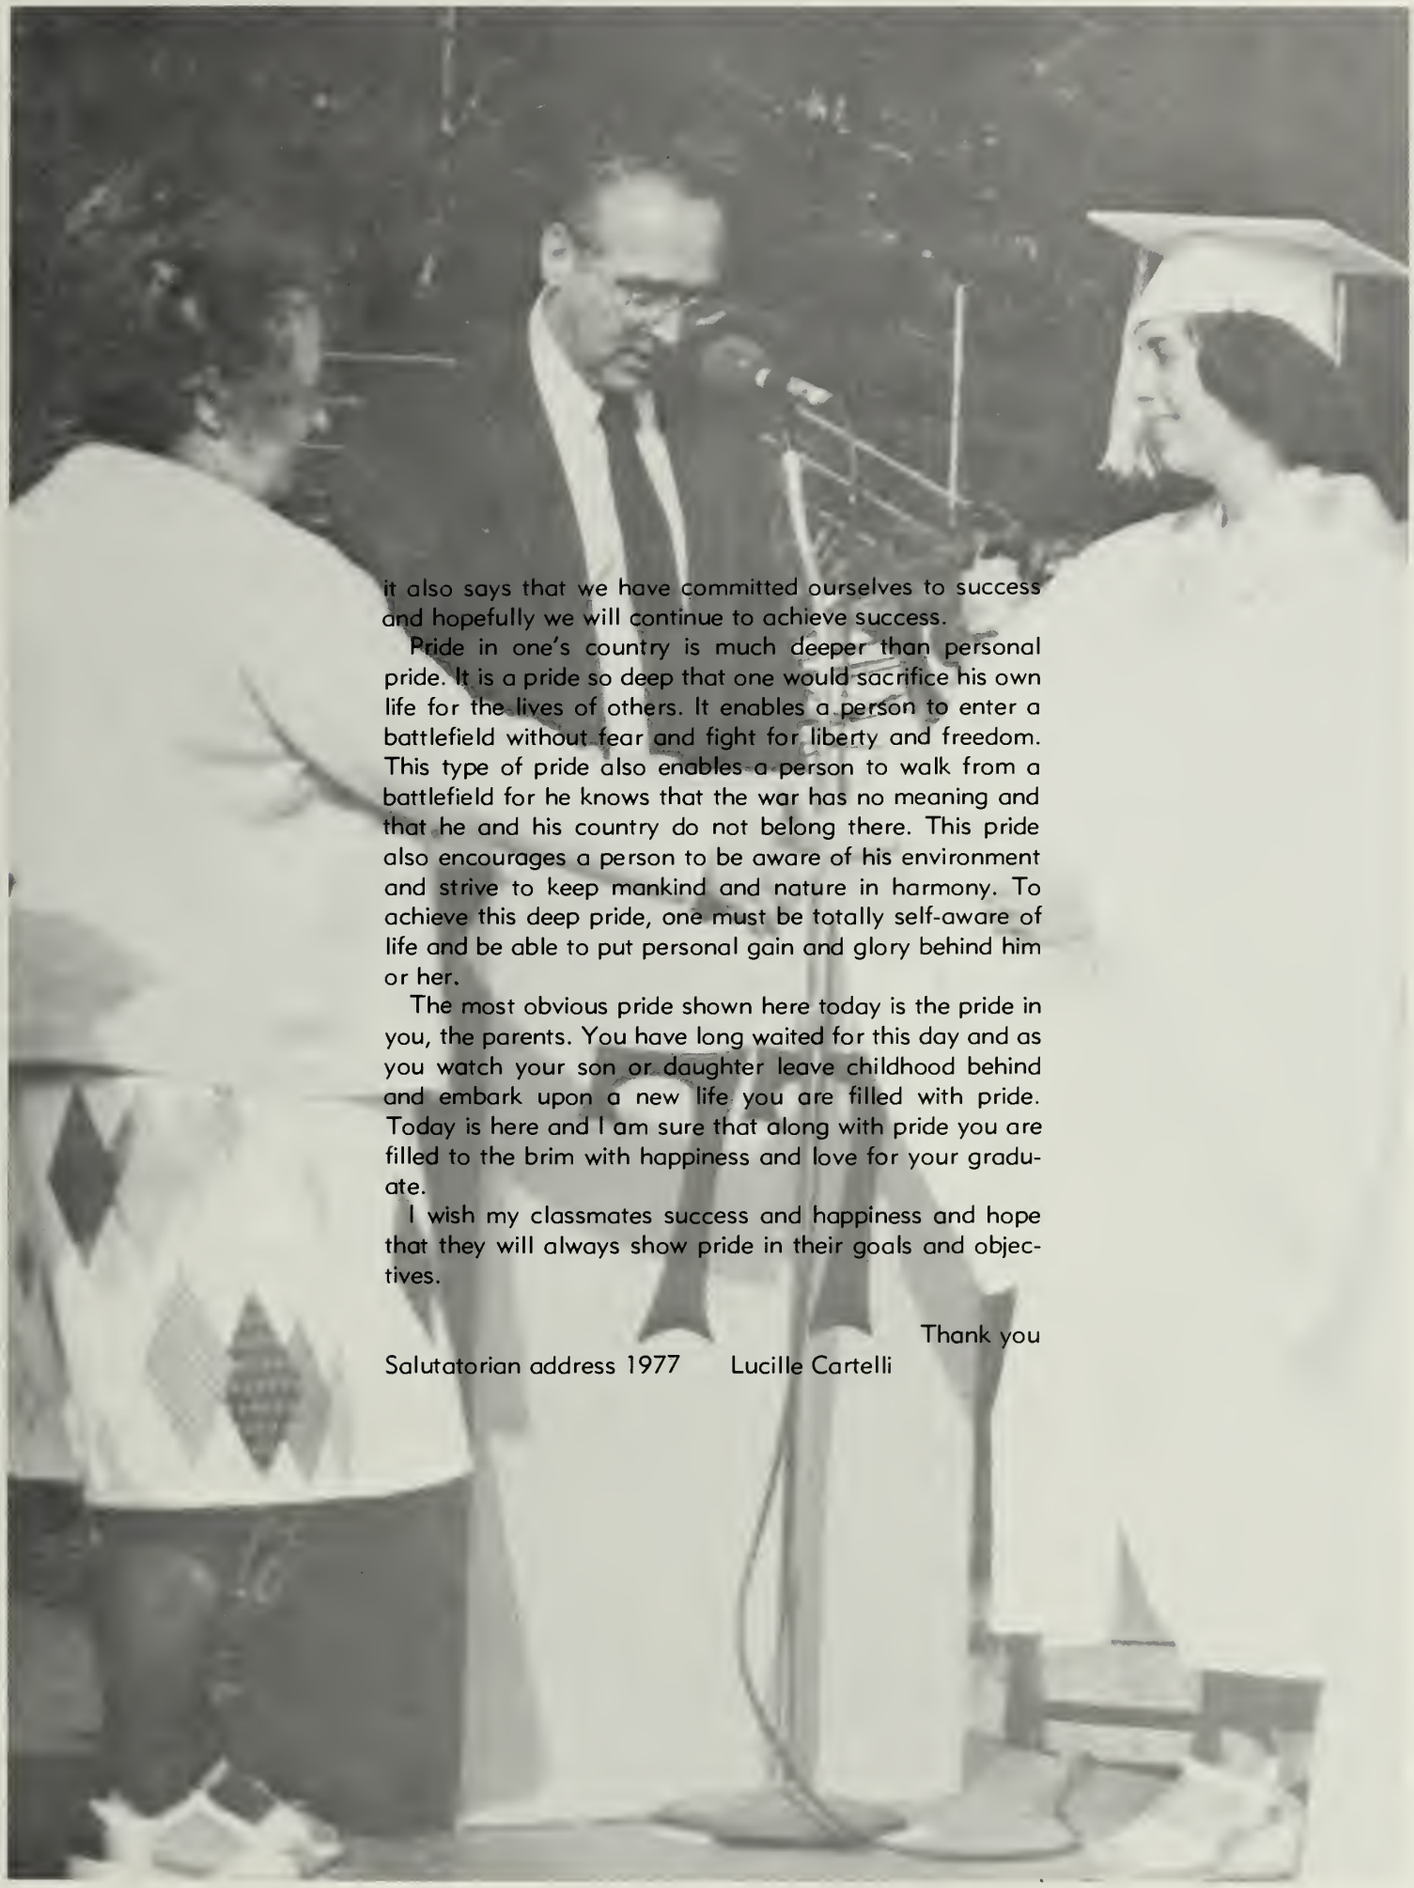
SUCCESS: PRIDE

Honored guests, parents, teachers, classmates, and friends:

On behalf of the class of 19 hundred and 77, I welcome you to our graduation exercises.

As I look toward my fellow classmates, I realize that each and everyone of them has found success. But what really is success? Is it owning a $100,000 home, three cars, and a private tennis court? Or is it knowing that each day spent was spent to the fullest? I believe that the latter definition is more accurate. I also believe that only through pride for oneself and for one's country can one achieve this success. Pride is the foundation of any endeavor embarked upon by any individual. Pride brings about a sense of satisfaction over what one is, has, or has done. Without this pride and self-awareness, one would not be able to achieve satisfaction in life.

Personal pride in oneself enables a person to achieve success from day to day. Every one graduating here today has achieved personal pride. For without this pride, he or she would not be here. It is this hidden sense of pride that has pushed and tugged at each of us to complete these past four years and to sit here today to receive our diplomas which say that we have completed high school, but



it also says that we have committed ourselves to success and hopefully we will continue to achieve success.

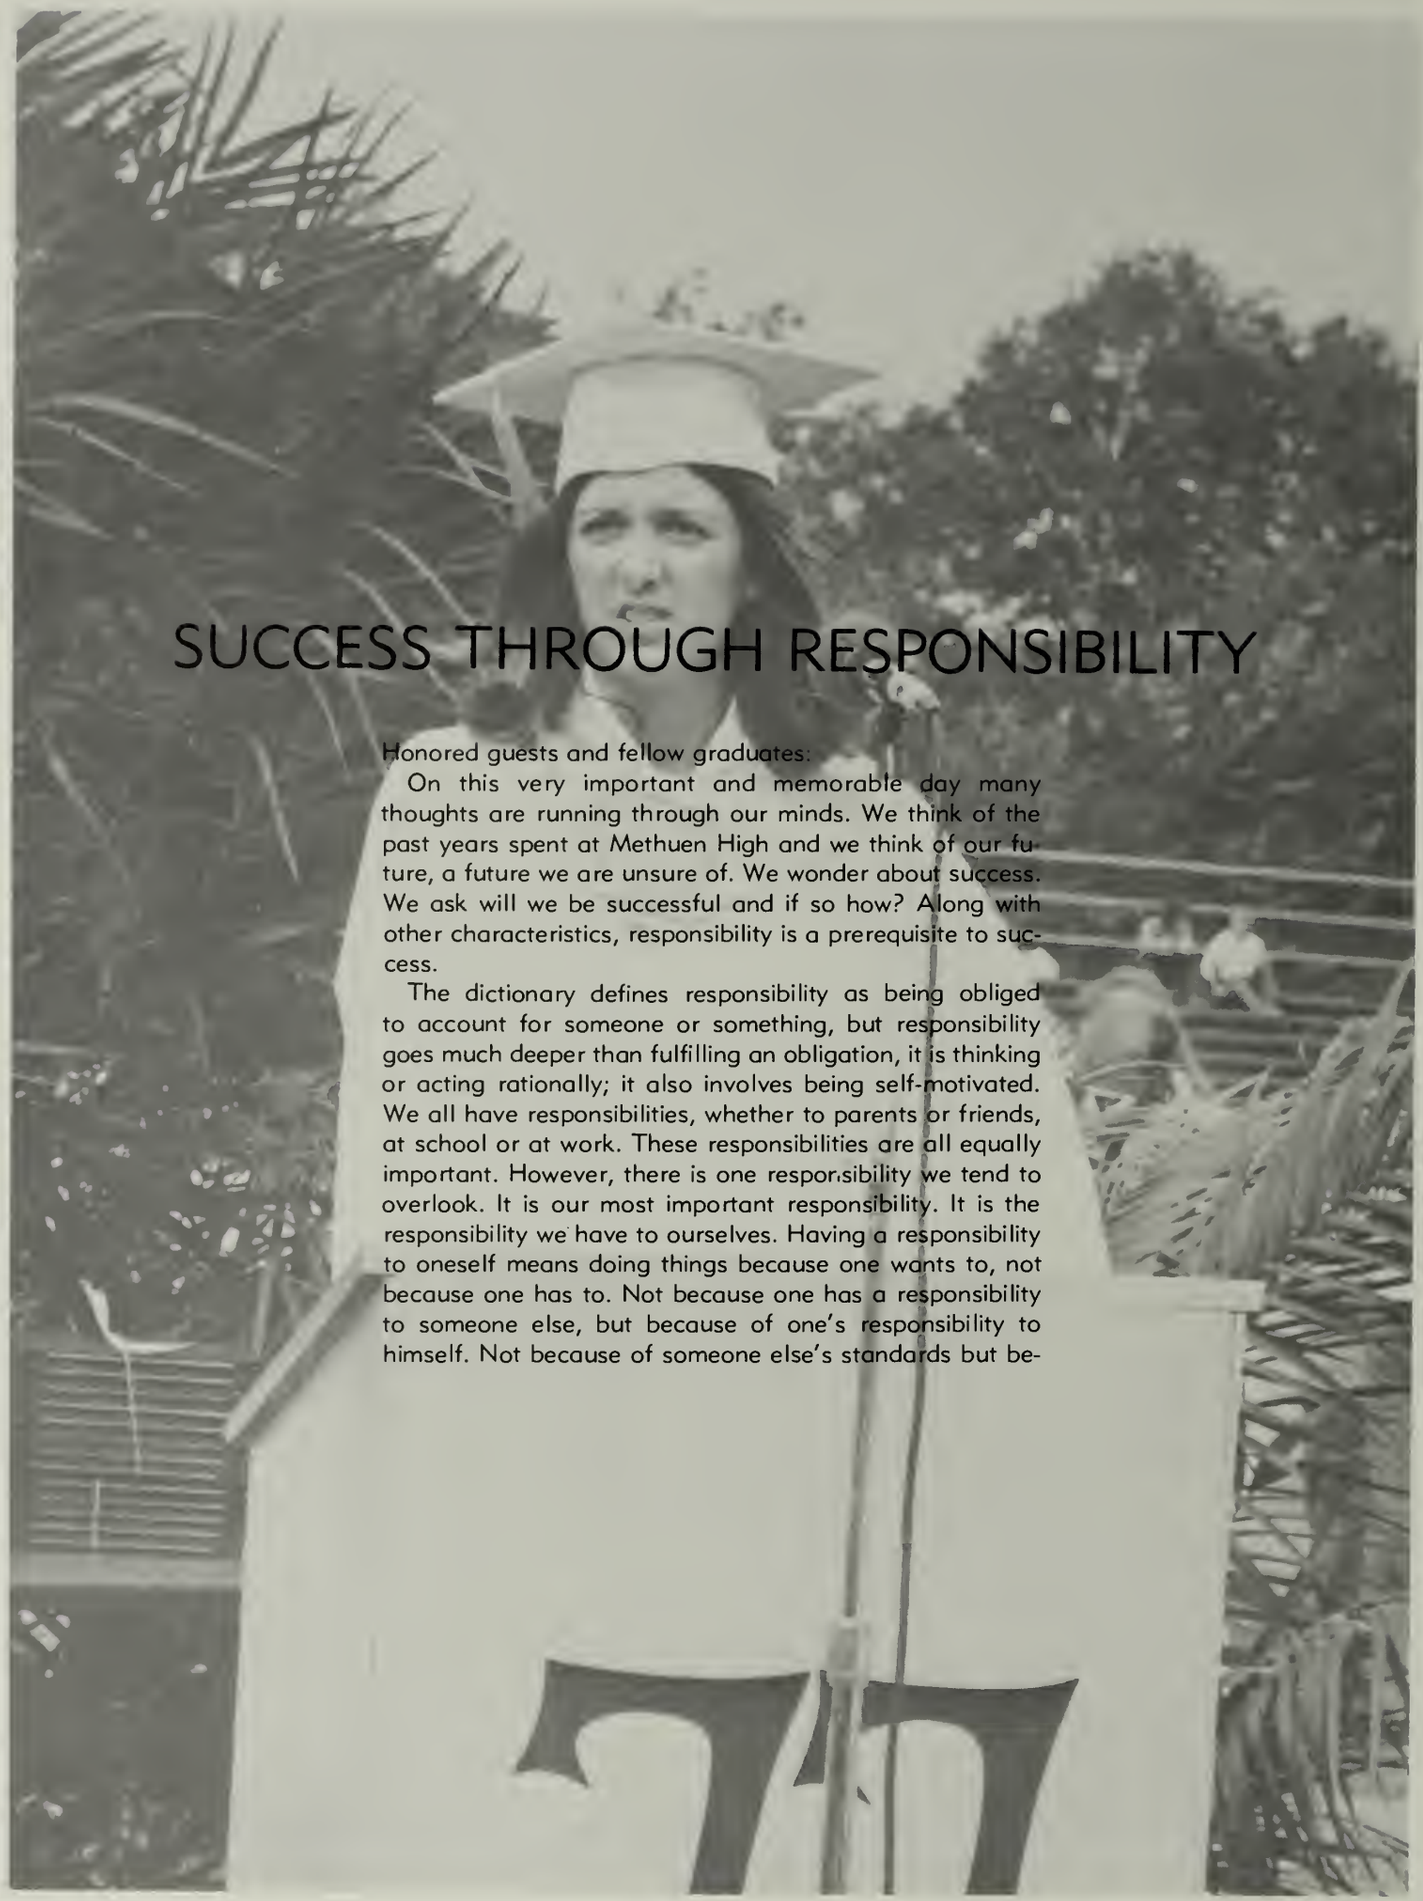
Pride in one's country is much deeper than personal pride. It is a pride so deep that one would sacrifice his own life for the lives of others. It enables a person to enter a battlefield without fear and fight for liberty and freedom. This type of pride also enables a person to walk from a battlefield for he knows that the war has no meaning and that he and his country do not belong there. This pride also encourages a person to be aware of his environment and strive to keep mankind and nature in harmony. To achieve this deep pride, one must be totally self-aware of life and be able to put personal gain and glory behind him or her.

The most obvious pride shown here today is the pride in you, the parents. You have long waited for this day and as you watch your son or daughter leave childhood behind and embark upon a new life you are filled with pride. Today is here and I am sure that along with pride you are filled to the brim with happiness and love for your graduate.

I wish my classmates success and happiness and hope that they will always show pride in their goals and objectives.

Thank you

Salutatorian address 1977 Lucille Cartelli

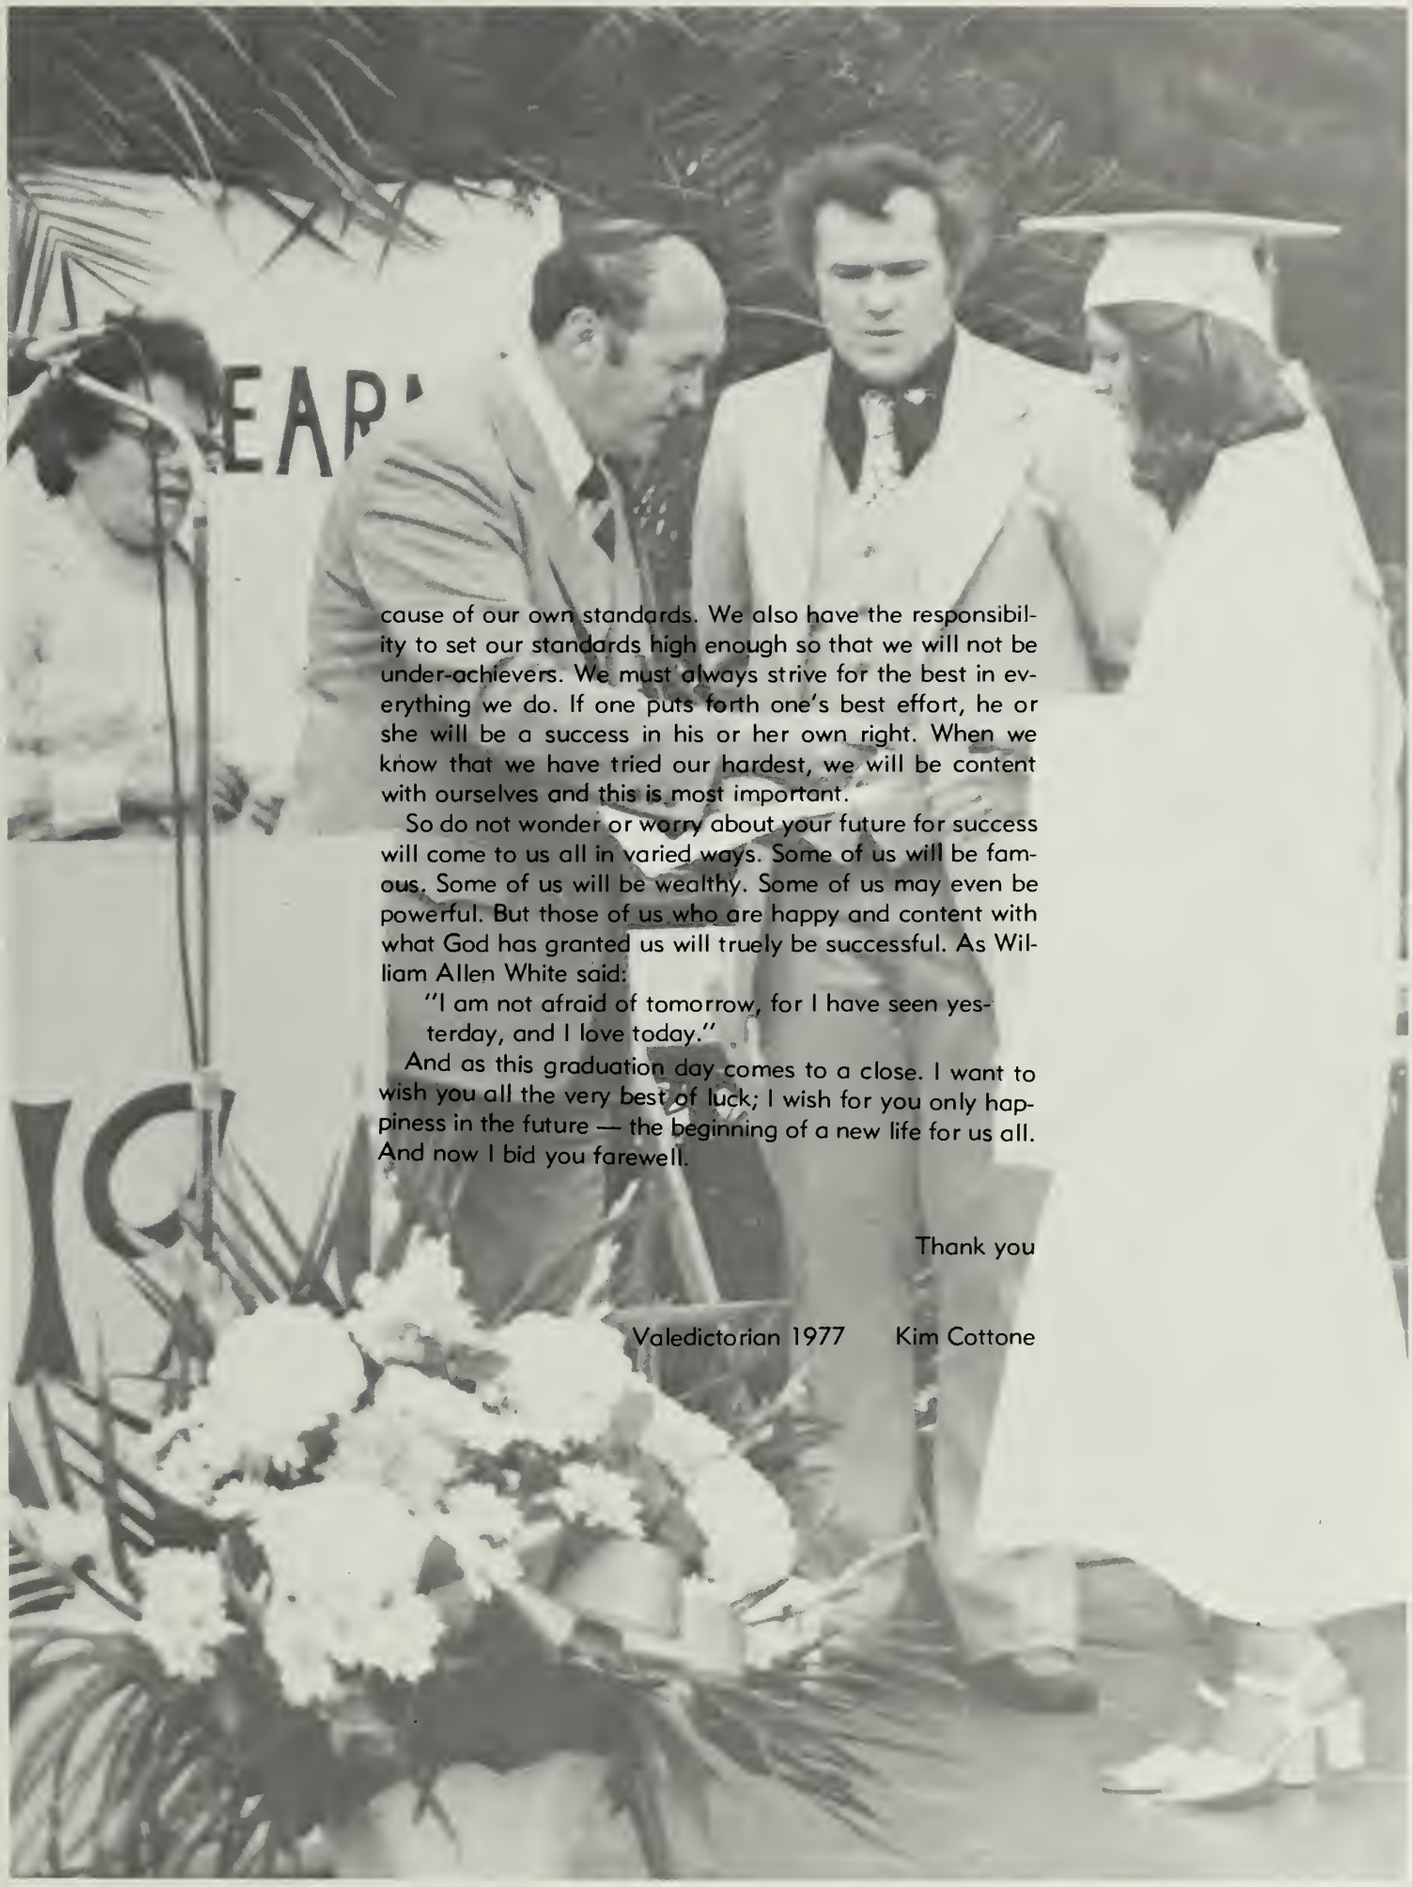


SUCCESS THROUGH RESPONSIBILITY

Honored guests and fellow graduates:

On this very important and memorable day many thoughts are running through our minds. We think of the past years spent at Methuen High and we think of our future, a future we are unsure of. We wonder about success. We ask will we be successful and if so how? Along with other characteristics, responsibility is a prerequisite to success.

The dictionary defines responsibility as being obliged to account for someone or something, but responsibility goes much deeper than fulfilling an obligation, it is thinking or acting rationally; it also involves being self-motivated. We all have responsibilities, whether to parents or friends, at school or at work. These responsibilities are all equally important. However, there is one responsibility we tend to overlook. It is our most important responsibility. It is the responsibility we have to ourselves. Having a responsibility to oneself means doing things because one wants to, not because one has to. Not because one has a responsibility to someone else, but because of one's responsibility to himself. Not because of someone else's standards but be-



cause of our own standards. We also have the responsibility to set our standards high enough so that we will not be under-achievers. We must always strive for the best in everything we do. If one puts forth one's best effort, he or she will be a success in his or her own right. When we know that we have tried our hardest, we will be content with ourselves and this is most important.

So do not wonder or worry about your future for success will come to us all in varied ways. Some of us will be famous. Some of us will be wealthy. Some of us may even be powerful. But those of us who are happy and content with what God has granted us will truely be successful. As William Allen White said:

"I am not afraid of tomorrow, for I have seen yesterday, and I love today."

And as this graduation day comes to a close. I want to wish you all the very best of luck; I wish for you only happiness in the future — the beginning of a new life for us all. And now I bid you farewell.

Thank you

Getting up in the world is more than just holding down a job.

Holding down a job that's holding you down just doesn't make sense. That's where the Navy can help. By training you for a job that can really get you up in the world. A job that can lead to success. Opportunity. Pride in yourself. And a future that's as bright as you want to make it.

Show us that you've got what it takes, and you can work in one of many challenging jobs that let you make the most of your good head.

Or good hands. In electronics. Aircraft structural mechanics. Radio communications. And a lot more.

You'll work hard. Possibly a lot harder than on your present job. Why not? You'll be getting a lot more back in return. A rewarding future. Some of the best pay and benefits in Navy history. Even a chance to travel and make some lasting friendships while you're doing it.

Talk to your local recruiter. He can tell you what you qualify for before you enlist.
